Introduction and What's New

Introduction

Payment of premiums to the Pension Benefit Guaranty Corporation (PBGC) is required by sections 4006 and 4007 of the Employee Retirement Income Security Act of 1974 (ERISA), and PBGC's Premium Regulations (29 CFR Parts [4006](#) and [4007](#)).

There are two kinds of annual premiums: the Flat-rate Premium, which applies to all plans, and the Variable-rate Premium, which applies only to Single-employer Plans.

Every covered plan under ERISA section 4021 must make a premium filing each year. The due dates are described in the "[When to File](#)" section.

Electronic filing is mandatory for all plans. My Plan Administration Account (My PAA) is a secure Web-based application that enables pension plan professionals to electronically submit premium filings to PBGC in accordance with PBGC's regulations. Electronic filings may be prepared using My PAA's data entry screens or with compatible private-sector software. See "[How to File](#)" section for more information. For more information on e-filing options, see [Appendix 3](#).

This document provides information for plans paying premiums for plan years beginning in **2019**, including instructions for each data element that must be reported.

Plan years beginning before 2019

If you are filing for a previous year or amending a filing for a previous year, you must follow the instructions for that year (available from the "[Premium Filing](#)" webpage). However, because contact information and information about electronic funds transfers change periodically, the most recent information should be used instead of the information included in an instructions booklet for a prior plan year.

Defined terms

Appendix 1 provides definitions for terminology used this document. In general, the defined terms are capitalized to signal the reader to refer to Appendix 1 for more information. The convention of capitalizing the defined terms is not followed for a few defined terms such as "participant," "we," "you," and "your."

What's New

The filing requirements for 2019 are almost identical to the filing requirements for 2018. Here are the key changes to note for 2019:

- Changes in premium rates:
 - Single-employer plans: The flat-rate premium is \$80 per-participant, up from \$74; the Variable-rate premium is \$43 per \$1,000 of unfunded vested benefits capped at \$541 times the number of participants, up from \$38 per \$1,000 of unfunded vested benefits capped at \$523 times the number of participants.
 - Multiemployer plans: The flat-rate premium is \$29 per-participant, up from \$28. Multiemployer plans do not pay Variable-rate premiums.
- We included information about the process by which plan administrators may certify the filing manually instead of electronically. See instructions for line 21 of the illustrative form.
- We revised the instructions regarding disaster relief to reflect recent changes made to PBGC's practice. See "[When to File](#)" section and the instructions for line 20 of the illustrative form.

Introduction and What's New

- We increased My PAA functionality by adding a “Submit a Request” Quick Link button. See [Appendix 3](#).
- We clarified the instructions for reporting the business code. See the instructions for line 1b of the illustrative form.
- We expanded the list of common filing errors. See below and [Appendix 4](#).

Changes to payment instructions

Instructions about where and how to send premium payments (both electronically and by U.S. mail) were changed in 2018. As of the date these instructions were posted, we are not expecting additional changes in 2019. However, because the payment instructions are always subject to change, we encourage you to review our [“Premium Filing”](#) webpage each year before sending payment. Payments not received timely because they were sent to outdated addresses or because of a debit block may be subject to late payment charges.

Common filing errors

- Incorrect Identifying Information
- Sending Payment without Properly Identifying Plan
- New Plans Failing to do a First Year Filing
- Small Plan Lookback Rule Inconsistencies
- Entering incorrect “plan year” information for final short plan years

[Appendix 4](#) provides detailed information about these errors.

Who Must File

All Covered Plans Must File

The Plan Administrator of each pension plan covered under ERISA section 4021 is required to annually file the prescribed premium information and pay the premium due in accordance with PBGC's Premium Regulations and instructions.

Most private-sector defined benefit plans that meet tax qualification requirements are covered. If you are uncertain whether your plan is covered, you should promptly request a coverage determination. Note that a request for a coverage determination does not extend the due date for any premium that is finally determined to be due.

If your plan is covered, you must make a premium filing even if no premium is owed.

Short Plan Years

Premium filings are required for short plan years regardless of the reason why the plan year covers fewer than 12 full months. Unless the plan qualifies for premium pro-ration (see below), a full year's premium is owed for a short plan year.

Premium proration

In some cases, plans qualify to pay a prorated premium for a short plan year. For example, if a short plan year covers nine months (i.e., 75% of a full year) and the plan is eligible for premium proration, the calculated premium would be reduced by 25%.

Premiums are not pro-rated for short plan years created as the result of a mid-year Merger or Consolidation. In other words, if a plan ceases to exist during the plan year because all of its assets and liabilities are transferred to another PBGC-insured plan, a full year's premium is owed for the final plan year of the plan ceasing to exist.

Premiums are pro-rated for short plan years if that short plan year:

- Is the first year of a New Plan;
- Is created by:
 - an amendment that changes the plan year¹;
 - distribution of plan assets pursuant to plan termination; or
 - the appointment of a trustee for a Single-employer Plan under ERISA section 4042.
- Includes a portion of time in which the plan was not covered by PBGC, unless such period of non-coverage began after the first day of the plan year².

Note that the short year need not have ended by the time you pay a prorated premium, but if the plan year turns out to be longer than you anticipated, you will have to make up any premium underpayment, which will be subject to interest and penalties. This happens fairly regularly with respect to plans that are expecting to distribute plan assets pursuant to a standard plan termination near the end of the year, because it often takes longer than expected to complete the distribution.

¹ An amendment is not considered to change the plan year if the plan merges into or consolidates with another plan or otherwise ceases its independent existence either during the short plan year or at the beginning of the full plan year following the short plan year.

² A Newly Covered Plan with a coverage date after the first day of the Premium Payment Year qualifies to pay a prorated premium. A plan that ceases to be a covered plan before the end of the plan year does not qualify for proration.

Who Must File

Alternate approach for plans anticipating a final distribution of assets after premium due date.

To avoid the possibility of late payment charges arising if the final distribution takes longer than expected, if you are anticipating a short final plan year as the result of distribution of plan assets pursuant to a standard plan termination, but the distribution hasn't been completed by the premium due date, you may file without regard to the anticipated short plan year. With this approach, you would:

- Report that the premium filing is for the full plan year,
- Not report that the premium filing is the final filing for the plan,
- Report the "plan year end" date as if the plan year is not a short plan year, and
- Pay the entire premium, without proration and without regard to the Variable-rate Premium exemption for plans distributing assets during the plan year (For information about exemption, see instructions for line 7c in the "[Description of Data Elements](#)" section.)

With this approach, it will not be necessary to amend the premium filing if it turns out the distributions are completed before year end. Rather, after Form 501 (Post-Distribution Certification) is processed, PBGC will automatically prorate the premium, apply the Variable-rate premium exemption and close out the premium account. Any overpayment will be available for refund. The refund can be requested via email or in MyPAA.

One Plan or More Than One?

If several unrelated employers participate in a program of benefits wherein the funds attributable to each employer are available to pay benefits to all participants, then there is a single Multiemployer or Multiple-employer Plan and the Plan Administrator must file and pay premiums for the plan as a whole. Separate filings and premiums cannot be submitted for each individual employer.

If several employers participate in a program of benefits wherein the funds attributable to each employer are available only to pay benefits to that employer's employees, then there are several plans (one for each employer) and the Plan Administrator must file and pay premiums separately for the plan of each individual employer.

If separate plans are maintained for different groups of employees, regardless of whether each is maintained by the same employer or by employers that are part of the same controlled group, then the Plan Administrator(s) must file and pay premiums separately for each plan.

When Filing Obligation Ceases

You must continue to make premium filings and pay premiums through and including the plan year in which any of the following occurs:

- Plan assets are distributed in satisfaction of all Benefit Liabilities pursuant to the plan's termination.
- A trustee is appointed for the plan under ERISA section 4042.
- The plan disappears by transferring all its assets and liabilities to one or more other plans in a Merger or Consolidation.
- The plan ceases to be a covered plan under ERISA section 4021.

Who Must File

The following examples illustrate when the filing obligation ceases:

Example 1 – A calendar-year plan terminates in a standard termination with a termination date of September 29, 2018. On April 6, 2019, assets are distributed in satisfaction of all Benefit Liabilities. The Plan Administrator must file and make the premium payments for the 2018 and 2019 plan years. There is also an obligation to file a post-distribution certification (Form 501) as part the standard termination process. See § 4041.29 for additional information.

Example 2 – A plan with a plan year beginning July 1 and ending June 30 terminates in a distress termination with a termination date of April 27, 2019. On July 6, 2019, a trustee is appointed to administer the plan under ERISA section 4042. Premium filings and payments must be made for this plan for both the 2018 and 2019 plan years, because a trustee was not appointed until after the beginning of the 2019 plan year.

When to File

Introduction

This section describes when premium filings are due. A filing includes both the submission of required data and the payment of any required premium. In general, if a filing is not made by the due date, late payment charges will apply. Late payment charges include both interest charges and penalty charges. See "[Late Payment Charges](#)" section for more information on the ramifications of missing a deadline.

Normal Premium Due Date

The Normal Premium Due Date applies unless:

- The plan is a New or Newly Covered Plan (including plans created as the result of a mid-year spinoff from another plan),
- The plan year changed since last year, or
- All assets are distributed during the Premium Payment Year pursuant to a standard termination.

The Normal Premium Due Date is the 15th day of the 10th full calendar month in the plan year (e.g., generally October 15th for calendar-year plans).³ If the Normal Premium Due Date falls on a Saturday, Sunday or Federal Holiday⁴, the due date is automatically extended to the next business day⁵.

The following table shows the Normal Premium Due Dates for plan years beginning in 2019:

2019 Normal Premium Due Dates

Premium Payment Year Begins	Normal Premium Due Date	Premium Payment Year Begins	Normal Premium Due Date
1/1/2019	10/15/2019		
1/2 - 2/1/2019	11/15/2019	7/2 - 8/1/2019	5/15/2020
2/2 - 3/1/2019	12/16/2019*	8/2 - 9/1/2019	6/15/2020
3/2 - 4/1/2019	1/15/2020	9/2 - 10/1/2019	7/15/2020
4/2 - 5/1/2019	2/18/2020*	10/2 - 11/1/2019	8/17/2020*
5/2 - 6/1/2019	3/16/2020*	11/2 - 12/1/2019	9/15/2020
6/2 - 7/1/2019	4/15/2020	12/2 - 12/31/2019	10/15/2020

* The actual due date falls on a Saturday, Sunday or Federal Holiday, so the date shown above is the first business day following the actual due date.

³ The due date is the 15th day of the 10th full calendar month that begins on or after the first day of the Premium Payment Year. In situations involving a short plan year, this due date may not be "in the plan year."

⁴ This extension does not apply to state or local holidays such as Patriots Day in Massachusetts or Emancipation day in the District of Columbia.

⁵ See "[Late Payment Charges](#)" section for information on how late charges are determined if payment is made after an automatically extended due date.

When to File

Due Date for Special Situations

In the situations noted below, premiums may be due on a date other than the Normal Premium Due Date:

- The plan is a New or Newly Covered Plan,
- All assets are distributed during the Premium Payment Year pursuant to a standard termination,
- The plans is eligible for PBGC disaster relief, or
- The plan year changed since last year.

The due dates for these situations are described below. For all of these situations, if the adjusted due date falls on a Saturday, Sunday or Federal Holiday, the due date is automatically extended to the next business day.

New and Newly Covered Plans

In some cases, these first-time filers cannot have their filings ready by the Normal Due Date. For example, consider a calendar year plan that is adopted November 1st with an effective date retroactive to January 1. Because the plan was adopted after the Normal Premium Due Date (October 15th), a later due date is warranted. This rule applies even if the New Plan was created as the result of a mid-year spinoff from another plan.

To accommodate such plans, the due date for New and Newly Covered Plans is the latest of:

- The Normal Due Date,
- 90 days after the date of the plan's adoption,
- 90 days after the date on which the plan became covered by Title IV of ERISA, or
- In the case of a Small Plan that is also a Continuation Plan, 90 days after the UVB Valuation Date.

These rules are illustrated in the following examples:

Example 1 – Plan B, a calendar-year plan was adopted August 1, 2019 with a retroactive effective date of January 1, 2019. Plan B is not a Continuation Plan or a Small Plan. The due date for Plan B's first premium filing is October 30, 2019 (90 days after August 1, 2019) because that date is later than the Normal Premium Due Date (October 15, 2019).

Example 2 – The situation for Plan C is identical to Plan B (see Example 2) except that the plan was adopted one month earlier, July 1, 2019. The due date for Plan C's first premium filing is October 15, 2019, the Normal Premium Due Date because that date is later than 90 days after the adoption date.

Example 3 – A professional service employer maintains Plan D, a calendar plan year plan. From plan inception through September 30, 2019, Plan D never had more than 25 active participants, and was not a covered plan under ERISA section 4021. On October 1, 2019, a few employees were hired and became covered by the plan resulting in a total active participant count of 26 and therefore, the plan became a covered plan on that date. Plan D will continue to be a covered plan regardless of how many active participants the plan has in the future. Note that the Premium Payment Year begins on January 1, 2019, even though the plan did not become covered until after that date. The due date for the plan's first premium filing is December 30, 2019 (90 days after October 1, 2019) because the date is later than the Normal Premium Due Date (October 15, 2019).

See "[Spinoffs, Mergers, and Consolidations](#)" section for additional examples of how these types of transactions affect due dates.

When to File

Assets Distributed Pursuant to a Standard Termination

For the Premium Payment Year in which all plan assets are distributed pursuant to standard termination, it is possible that the employer will be out of business or plan records and personnel will not be available by the Normal Premium Due Date. To streamline the final premium payment with the other activities related to a standard termination, the due date for a plan in this situation is the earlier of:

- The Normal Premium Due Date (i.e., the date premiums would have been due had the plan not been terminated), or
- The date when the post-distribution certification⁶ is filed with us.

Plans Affected by Certain Disasters

When the IRS grants relief to certain taxpayers that are unable to meet filing deadlines because of a major disaster (e.g., a hurricane), the premium due date for plans in the IRS-designated disaster area is extended to the end of the relief period.

If your plan qualifies for disaster relief, you must notify PBGC on or before the end of the relief period. In general, this notification is done as part of the Comprehensive Premium Filing⁷. However, if you anticipate it will be difficult to submit the Comprehensive Premium Filing by the end of the relief period, you may notify us by email. See [PBGC's Disaster Relief Announcement](#) for more information.

When an expected premium filing is not received timely, PBGC typically sends a “past due filing notice” to the plan administrator. We appreciate that receiving such notices can be disconcerting in situations where the filer is eligible for disaster relief. But, until PBGC receives a filing or email indicating that your plan is subject to an extended due date because of disaster relief, PBGC does not know that there is a good reason the filing has not yet been submitted.

If your plan is eligible for disaster relief, you can stop these notices from being sent simply by letting PBGC know that your plan is eligible for disaster relief. To do so, just send an email in advance of the normal due date to Premiums@pbgc.gov identifying the plan, the disaster, etc.

Plans Changing Plan Years

For a plan that changes its plan year, the filing due dates for the short year are unaffected by the change in plan year. However, for the first plan year under the new cycle, the due date is whichever is later:

- The Normal Premium Due Date, or
- 30 days following the date on which a plan amendment changing the plan year was adopted.

The following examples show the due dates for plans changing plan years:

Example 1 – By plan amendment adopted on December 1, 2019, a plan changes from a plan year beginning January 1 to a plan year beginning June 1. This results in a short plan year beginning January 1, 2019 and ending May 31, 2019. Premiums for the short plan year are due October 15, 2019, the Normal Premium Due Date.

⁶ The post-distribution certification (Form 501) is a document required to be submitted to PBGC as part the standard termination process. See [§ 4041.29](#) for additional information.

⁷ See line 20 and box at the top of the first page of the illustrative form in the “Data to be submitted” section.

When to File

For the plan year beginning June 1, 2019, the premiums are due by the Normal Premium Due Date (March 15, 2020) because that is later than 30 days after the date the plan amendment changing the plan year was adopted (December 31, 2019).

Example 2 – By plan amendment adopted on January 6, 2020, and made retroactively effective to April 1, 2019, a plan changes from a plan year beginning on March 1 to a plan year beginning on April 1. For the March 1, 2019 - March 31, 2019 short plan year, the premium is due December 17, 2019. For the new plan year beginning April 1, 2019, the due date is 30 days after the adoption of the plan amendment changing the plan year (February 5, 2020) because that is later than the Normal Premium Due Date (January 15, 2020).

Additional Information

You can find detailed rules about filing due dates in PBGC's premium payment regulation ([29 CFR Part 4007](#)).

How to File

General

To make a complete premium filing, you must report certain required data and submit any required premium payment by completing and submitting a comprehensive premium filing.

A list of the data that must be reported is included in the “[Data to be Submitted](#)” section. For simplicity, the required data elements are shown in a traditional “form” format. The purpose of the “form” is to provide a comprehensive list of data that must be submitted electronically. These instructions are written as if they related to the illustrative form (see “[Description of Data Elements](#)” section). The “form” is for illustrative purposes only.

Filing Method

Premium filings are submitted electronically through PBGC’s e-filing application, My Plan Administration Account (My PAA).

You may prepare the filing directly using My PAA’s data entry screens. Alternatively, you may use approved private-sector software to prepare a filing and then “import” the data into My PAA’s editing screens or “upload” the filing via My PAA. Approved private-sector software is able to place your filing in an electronic file in an “XML” format that meets PBGC specifications.

Depending on how you choose to prepare electronic filings (My PAA data entry screens or private-sector software), the order in which the questions are asked may differ from the order shown on the forms. In addition, in some cases, the software may perform certain calculations instead of requiring that you manually enter each required data element.

[Appendix 3](#) provides an introduction to My PAA. The “[Online Premium Filing \(My PAA\)](#)” section of PBGC’s website provides detailed, and often more up to date, information about My PAA.

Paying Premiums

Although e-filing of premium information through My PAA is mandatory, premium payments may be made either within My PAA or outside of My PAA. If you choose to pay within My PAA, you may pay by an electronic funds transfer using Automated Clearing House (ACH). If you pay outside of My PAA, you may pay by electronic funds transfer (ACH or Fedwire), paper check or on-line via www.pay.gov. Pay.gov is a free, and user-friendly Federal website from which you can make secure electronic payments directly to many Federal Agencies, including PBGC. We recommend using Pay.gov to minimize the potential for errors (e.g., incorrect account numbers).

Note re: debit blocks - If you are sending payment electronically, be sure to provide the PBGC Company ID to your financial institution **before you submit your payment** so they may authorize PBGC to debit your account. Without this authorization, your financial institution may reject the processing of your payment. A debit block is the most common reason for failed ACH payments, and the most common reason late premium payment penalties are assessed.

Currently, PBGC has two Company ID numbers, one for payments made within My PAA, and one for payments made outside of My PAA. Please refer to the payment instructions in My PAA or on PBGC.gov for up to date information.

Additional information on payment options is included in [Appendix 3](#).

How to Count Participants

General

Plan participants must be counted because Flat-rate Premiums are based on the number of participants, as are both caps on the Variable-rate Premium (MAP-21 Cap and Small Employer Cap). In addition, the number of participants affects whether Variable-rate premiums are based on current or prior (i.e., “lookback”) year measurements. The date on which participants are counted is called the “Participant Count Date.”

Participant Count Date

The Participant Count Date is the last day of the plan year preceding the Premium Payment Year except as follows:

- If the plan is a New Plan, the Participant Count Date is the first day of the Premium Payment Year (i.e., the effective date).
- If the plan is a Newly Covered Plan, the Participant Count Date is the first day of the Premium Payment Year. This is the case even if the plan wasn’t covered under ERISA section 4021 on that date.
- If the plan is the Transferee Plan in a Merger (i.e., the continuing plan) or the Transferor Plan in a Spinoff and the transaction meets the conditions described below, the Participant Count Date is the first day of the Premium Payment Year. A plan Merger or Spinoff is covered by this rule if:
 - a Merger is effective on the first day of the Transferee Plan’s Premium Payment Year, or a Spinoff is effective on the first day of the Transferor Plan’s Premium Payment Year, and
 - the Merger or Spinoff is not *de minimis*, in accordance with the regulations under section 414(l) of the Code with respect to Single-employer Plans, or with PBGC’s regulation under ERISA section 4231 (29 CFR Part 4231) with respect to Multiemployer Plans.

The following examples illustrate the determination of the Participant Count Date.

Example 1 – An ongoing plan changes its plan year from a calendar year to a plan year that begins June 1, effective June 1, 2019. The Participant Count Date for the:

- January 1, 2019 – May 31, 2019 plan year is December 31, 2018,
- June 1, 2019 – May 31, 2020 plan year is May 31, 2019.

Example 2 – A new calendar-year plan is adopted February 18, 2019, retroactively effective as of January 1, 2019. The Participant Count Date is January 1, 2019.

Example 3 – A new calendar-year plan is adopted January 1, 2019, effective April 1, 2019. The Participant Count Date is April 1, 2019.

Example 4 – A calendar-year plan that was not a covered plan under ERISA section 4021 becomes covered on May 31, 2019. The first day of the Premium Payment Year is January 1, 2019, and the Participant Count Date is January 1, 2019.

See “[Spinoffs, Mergers, and Consolidations](#)” section for additional examples of how these types of transactions affect the Participant Count Date.

How to Count Participants

Participant

For premium purposes, “participant” means an individual (whether active, inactive, retired, or deceased) with respect to whom the plan has Benefit Liabilities as of the Participant Count Date. Beneficiaries and alternate payees are not counted as participants. However, a deceased participant will continue to be counted as a participant if there are one or more beneficiaries or alternate payees who are receiving or have a right to receive benefits earned by the participant.

An individual is not counted as a participant after all Benefit Liabilities with respect to the individual are distributed through the purchase of irrevocable commitments from an insurer or otherwise. In addition, a non-vested individual is not counted as a participant after:

- A deemed “zero-dollar cashout,”
- A one-year break in service under plan rules, or
- Death.

Cashouts

If the plan has a separate cashout provision for zero benefits, terminated non-vested participants are deemed to be cashed out as of the date specified in the deemed cashout provision or, if no date is specified, as of the employment termination date. If the plan provides that zero benefit amounts will be deemed to be paid as soon as possible, terminated non-vested participants will also be deemed to be cashed out as of the employment termination date.

If the plan does not have a separate cashout provision for zero benefits, but does have a mandatory cashout of small benefit amounts (*e.g.*, benefits \$5,000 or less), terminated non-vested participants are deemed to be cashed out in the same manner as terminated vested participants. If the plan is silent as to the timing of actual cashouts of terminated vested participants, the plan is deemed to read “as soon as practicable” and the terminated non-vested participants are deemed to be cashed out immediately upon termination of employment. If the plan specifies a date as of which actual cashouts of terminated vested participants take place (*e.g.*, on the first day of the next month), that rule would also apply to deemed cashouts of terminated non-vested participants. These rules do not apply if, despite plan language, the plan has an obvious pattern or practice of delaying distributions for long periods.

Example – Suppose a calendar-year plan provides that if a participant terminates employment and the participant’s vested benefit has a value of \$5,000 or less, the plan will pay the vested benefit to the participant in a lump sum as of the first of the month following termination of employment. Suppose further that no plan provisions specifically address payment of benefits upon termination of employment by non-vested participants. If a participant with a non-vested accrued benefit terminates employment on December 15, 2018, the participant will be included in the Participant Count as of December 31, 2018 (because the cashout is deemed to occur on January 1, 2019, the first of the month following termination of employment). If, as is typically the case for a calendar-year plan, the plan’s Participant Count Date for 2019 is December 31, 2018, a Flat-rate Premium must be paid for this participant for 2019.

How to Count Participants

Breaks in Service

A non-vested individual ceases to be a participant for premium purposes when the individual incurs a one-year break in service under the plan.

If the break in service occurs in a service computation period that coincides with the plan year preceding the Premium Payment Year, we treat the individual as not being a participant for purposes of determining the premium for the Premium Payment Year.

Example 1 – A calendar-year plan with five-year vesting provides that a participant who performs 500 or fewer hours of service in a service computation period incurs a one-year break in service as of the last day of the computation period. The plan also provides that the annual service computation period begins on the anniversary of a participant’s date of hire. Consider an employee who was hired on December 1, 2011, and terminates employment on February 1, 2018. Further assume that this participant does not perform more than 500 hours of service during the December 1, 2016 – November 30, 2018 computation period. This participant incurs a one-year break in service on November 30, 2018. Since the break occurred before December 31, 2018 (the Participant Count Date for the 2019 premium), the individual would not be included in the Participant Count for 2019.

Example 2 – A calendar-year plan provides that a participant who performs 500 or fewer hours of service in a service computation period incurs a one-year break in service as of the last day of the computation period. The plan also provides that the annual service computation period is the calendar year. Consider a non-vested employee who does not perform more than 500 hours of service during the 2018 calendar-year computation period. This participant incurs a one-year break in service on December 31, 2018. Although the break occurs on the Participant Count Date for the 2019 premium, the individual would not be included in the Participant Count for 2019.

Comparison to Form 5500

The Participant Count for the Premium Payment Year and the number of participants reported for item 6 of Form 5500 for the plan year preceding the Premium Payment Year (*e.g.*, the 2019 premium filing and the 2018 Form 5500) are generally determined as of the same date (*i.e.*, the last day of the plan year preceding the Premium Payment Year). However, the two counts may differ. For example:

- For premium purposes, individuals who are earning or retaining credited service but with respect to whom a plan has no Benefit Liabilities are not counted as participants. But individuals who are earning or retaining credited service are considered to be participants for purposes of item 6 of the Form 5500, even if the plan has no Benefit Liabilities with respect to them.
- There is a difference in the break-in-service rules that apply when counting participants for premium purposes and for purposes of item 6 of Form 5500. For purposes of item 6 of Form 5500, whether a non-vested individual is excluded from the count because of a break in service depends upon the plan language; under the provisions of most plans, the instructions for item 6 would require that a separated non-vested individual be counted as a participant until the individual has incurred five or more consecutive one-year breaks in service. For premium purposes, on the other hand, a non-vested individual is excluded from the count because of a break in service when the individual has incurred a one-year break in service under the terms of the plan.

How to Determine Unfunded Vested Benefits

General

“Unfunded vested benefits” (UVBs) is the term used to describe the underfunding measure on which the Variable-rate Premium is based. For Variable-rate Premium purposes, unfunded vested benefits means the excess, if any, of the Premium Funding Target, over the fair market value of plan assets. This section describes how and when the Premium Funding Target and fair market value of plan assets are determined for this calculation.

Which year’s UVBs

In general, Variable-rate Premiums are based on UVBs for the Premium Payment Year. However, Small Plans are subject to a Lookback Rule, under which the Variable-rate Premium for the Premium Payment Year is based on UVBs for the plan year preceding the Premium Payment Year - for example, under the Lookback Rule, the 2019 Variable-rate Premium is based on UVBs for 2018 (the Lookback Year).

The lookback rule first applied for 2014 plan years. At that time Small Plans were given automatic approval to permanently opt out of the Lookback Rule (i.e., to use current year UVBs to determine the Variable-rate Premium). Most Small Plans chose to do so. Those plans must continue to use current year UVBs to determine the Variable-rate Premium unless and until they seek and receive permission from PBGC to start using the Lookback Rule in the future (or unless the plan ceases to be a Small Plan). Information about how to seek such permission is covered later in this “Which year’s UVBs” section.

New and Newly Covered Small Plans

The Lookback Rule doesn’t apply to New and Newly Covered Small Plans because such plans don’t have a covered prior year to look back to. So, special rules apply. If a New or Newly Covered Plan is Small and:

- Was created as the result of a non de minimis Spinoff⁸ or Consolidation (i.e., “Continuation Plans”), the Variable-rate Premium for the Premium Payment Year is based on UVBs for that same year. These plans do, however, get more time to complete their filings (see “When to File” section).
- Is not a Continuation Plan, the plan is exempt from the Variable-rate Premium for its first year of filing. Note that such a plan could be either a newly established plan or a plan resulting from a de minimis Spinoff. The exception applies in either case.

These plans will be permitted to opt out of using the Lookback Rule without first seeking PBGC permission, the first time the Lookback Rule would otherwise apply.

Opting out of the Lookback Rule Starting with 2019

- Not the first opportunity to opt out - If a Plan had the opportunity to opt out of the Lookback Rule in the past but chose not to, PBGC permission is required to opt out for 2019. See next page for information on how to seek such permission.
- First opportunity to opt out - If the 2019 plan year is the first year for which a plan has the opportunity to opt out of the Lookback Rule, the plan may do so without first seeking permission from PBGC. For example, permission to opt out is not required if:
 - The plan was not a Small Plan for any year after 2014, but because of a decrease in Participant Count, is Small Plan for 2019;

⁸ See the [regulations](#) under section 414(l) of the Code with respect to Single-employer Plans.

How to Determine Unfunded Vested Benefits

- The plan was a New or Newly Covered Small Plan that was also a Continuation Plan for 2018 and was thus, required to use current year UVBs to determine its 2018 Variable-rate Premium;
- The plan did not have to calculate nor report UVBs for any year after 2014 because it was exempt from the VRP or eligible for the Small-employer Cap and chose to pay the cap and not report UVBs.

Small Plans reporting UVBs for the first time are cautioned to be careful to ensure the data reported in the Variable-rate Premium section of the filing are entered correctly because if the reported UVB Valuation Date⁹ is within the Premium Payment Year, we will expect all future filings to be completed using current year UVBs to determine the Variable-rate Premium.

Note for small plans with year-end valuation dates – It is not practical for a small plan with a year-end valuation date to opt out of the Lookback Rule. For example, consider a small plan with a calendar year plan year. Opting out of the Lookback Rule would mean measuring UVBs on December 31st, two and a half months after the October 15th due date.

Requesting permission to use (or not use) the Lookback Rule

As noted above, PBGC permission is required if:

- a small plan that had the opportunity to opt out of the Lookback Rule in the past but chose not to, wants to opt out starting with 2019, or
- a small plan that opted out of using the Lookback Rule in the past, wants to start using the Lookback Rule starting with 2019.

Such requests must be submitted at least 60 days before the due date using one of the following options:

- My PAA Quick Link feature: Select the “Request re: Lookback Rule” option from the “Submit Other Request & Correspondence” Quick Link in My PAA. Submitting the request this way has many benefits (e.g., automatically generated confirmation email, ability to check the status of a requests). See [Appendix 3](#) for more information.
- Email: Send an email to premiums@pbgc.gov with “Request re: Lookback Rule” in the subject line. If you do not receive an email acknowledgement within two business days, please call PBGC at 1 (800) 736-2444 (select option 2) to confirm that your request was received.

PBGC will review such requests based on the facts and circumstances and will grant such requests only for good cause in appropriate circumstances. PBGC will not grant requests made solely to reduce premiums.

If you do not receive a determination within 30 days of making the request, please call us at (800) 736-2444, as you will need the determination to make a timely premium filing.

⁹ See [line \(7\)\(c\)\(3\)](#) of the illustrative form in the “Data to be submitted” section.

How to Determine Unfunded Vested Benefits

Measurement date

Unfunded Vested Benefits are measured on the funding valuation date (i.e., the measurement date for determining the minimum required contribution) for the applicable plan year (i.e., either the Premium Payment Year or the Lookback Year, depending on whether the Lookback Rule applies). Regardless of whether the Lookback Rule applies, this date is called the UVB Valuation Date to distinguish it from the Participant Count Date (see “[How to Count Participants](#)” section).

So, for plans using the Lookback Rule, the UVB Valuation Date is the valuation date used to determine the minimum required contribution (i.e., “the funding valuation date”) for the Lookback Year. For all other plans, the UVB Valuation Date is the funding valuation date for the Premium Payment Year.

Examples

The following examples illustrate these rules:

Example 1 – Plan A, a calendar year plan, is not a Small Plan and therefore, in accordance with ERISA 303 must have a beginning of year valuation date. Plan A’s Variable-rate Premium for 2019 is based on UVBs for 2019 (i.e., the Premium Payment Year) measured as of 1/1/2019. This result is not dependent on whether the plan is a Continuation Plan.

Example 2 – Plan B is a pre-existing Small Plan and is therefore is subject to the Lookback Rule. Plan B has a calendar year plan year and a beginning of year valuation date. Plan B did not submit a request a PBGC regarding the Lookback Rule. If Plan B did not opt out of the Lookback Rule for 2018, its Variable-rate Premium for 2019 is based on UVBs for the plan year beginning in 2018 measured as of 1/1/2018. If Plan B opted out of the Lookback Rule for 2018, its Variable-rate Premium for 2019 is based on UVBs for the plan year beginning in 2019 measured as of 1/1/2019.

Example 3 – Plan C is a New Small Plan with a calendar year plan year and a beginning of year valuation date. Plan C was created as the result of a non *de minimis* Spin-off on 1/1/2018 and is therefore considered a Continuation Plan for 2018. As a Continuation Plan, Plan C is not subject to the Lookback Rule for 2018 (because there is no prior year to look back to). That means UVBs are measured as 1/1/2018¹⁰.

Example 4 – Plan D is a pre-existing Plan which has a calendar year plan year and a beginning of year valuation date. Plan D had a participant count of 102 for 2018, but due to attrition, its 2019 participant count is 98. Thus, Plan D is now subject to the Lookback Rule. That means Plan D’s Variable-rate Premium for 2019 is based on UVBs for the plan year beginning in 2018 (i.e., the “Lookback Year” measured as of 1/1/2018), the same UVBs that were used to determine the 2018 VRP. Alternatively, Plan D may opt out of the Lookback Rule, in which case, its Variable-rate Premium for 2019 will be based on UVBs for the plan year beginning in 2019 measured as of 1/1/2019.

¹⁰ Assuming the participant count remains below 100, Plan D will be subject to the Lookback Rule for 2019. That means that Plan D’s Variable-rate Premium for 2019 will also be based on UVBs for 2018 measured as of 1/1/2018. But, Plan D can opt out of the Lookback Rule starting with 2019.

How to Determine Unfunded Vested Benefits

Premium Funding Target

The Premium Funding Target is the liability measure underlying the UVB calculation. It is determined the same way the funding target is determined under ERISA section 303 (minimum funding requirements) except that only vested benefits are included, and a special premium discount rate structure is used. With the exception of the discount rate, all other assumptions must be identical to those used to determine the minimum required contribution under ERISA section 303. In lieu of using the special premium discount rates, you may make an election (**irrevocable for five years**) to use smoothed discount rates, similar to, and in some cases identical to, the rates used to determine the minimum required contribution. Different terminology is used to describe the Premium Funding Target depending on whether this election is in effect.

- Standard Premium Funding Target – This term describes the Premium Funding Target that applies unless the above-noted election is in effect. The discount rates used to determine the Standard Premium Funding Target are the ERISA section 4006(a)(3)(E)(iv) segment rates for:
 - In the case of a Small Plan using the Lookback Rule, the month before the month in which the Lookback Year begins.
 - In the case of any other plan, the month before the month in which the Premium Payment Year begins.

The ERISA section 4006(a)(3)(E)(iv) segment rates are based on the same bond yields as used to determine the segment rates for the ERISA section 303 funding target. However, unlike ERISA 303 segment rates which are averaged over 24 months, the segment rates used to determine the Standard Premium Funding Target are not averaged. These “spot” segment rates are published by IRS each month and are also posted on the [“Interest Rates and Factors”](#) section of the Practitioners Page on [PBG’s website](#).

- Alternative Premium Funding Target – This term describes the Premium Funding Target if the election described above is in effect. The Alternative Premium Funding Target is determined using the discount rates that would have been used to determine the ERISA section 303 funding target¹¹ for the Premium Payment Year (or, for a plan using the Lookback Rule, the Lookback Year) if not for the Interest Rate Stabilization Rules. Thus, if an election is made under:
 - ERISA section 303(h)(2)(D)(ii) to use the full yield curve instead of the three segment rates for purposes of determining the minimum required contribution, that same yield curve is used to determine the Alternative Premium Funding Target; or
 - ERISA section 303(h)(2)(E) to use one of the four months preceding the valuation date as the “applicable month,” instead of the month containing the valuation date, for determining which month’s rates to use, that same month’s rates, determined without regard to the Interest Rate Stabilization Rules, are used to determine the Alternative Premium Funding Target.

Until an election is officially revoked, it remains in place. An election to use the Alternative Premium Funding Target cannot be revoked for five calendar years. Similarly, once an election is revoked, the plan cannot make another election to use the Alternative Premium Funding Target for five full years. The following example illustrates the rules on making and revoking an election to use the Alternative Premium Funding Target.

¹¹ Note that this will not be the case if the plan is not yet subject to PPA for funding purposes, or if an election is made under PPA 2006 section 402, to use an 8.25% discount rate to determine the funding target for funding purposes. See [“Plans Subject to Special Funding Rules”](#) later in this section.

How to Determine Unfunded Vested Benefits

Example – Plan A first makes an election to use the Alternative Premium Funding Target for a plan year that begins on April 1, 2019. In this case, the Alternative Premium Funding Target must be used to determine unfunded vested benefits for all plan years beginning before April 1, 2023. The plan may revoke the election first effective for any plan year beginning on or after April 1, 2023, but unless the election is revoked, it will remain in place.

This is the case even if the plan year subsequently changes. For example, if the plan year is changed to the calendar year first effective January 1, 2023, the Alternative Premium Funding Target must be used for the short plan year April 1, 2022 – December 31, 2022 and for the January 1, 2023 – December 31, 2023 plan year. The first plan year for which the Plan Administrator may revoke the election is the 2024 plan year.

The election (or revocation) must be made by the premium filing due date. An election to use (or revoke) the Alternative Premium Funding Target is made as part of the comprehensive premium filing. If an election (or revocation) is not made as part of the comprehensive filing, it may be made as part of an amended filing only if the amended filing is made on or before the due date.

Vested Benefits

Only vested benefits are taken into account when determining the Premium Funding Target. For this purpose, a benefit does not fail to be considered vested solely because it is not protected under Code section 411(d)(6) and thus may be eliminated or reduced by the adoption of a plan amendment or by the occurrence of a condition or event. Such a benefit is vested for premium purposes (if the other requirements for vesting have been met) so long as the benefit has not actually been eliminated or reduced. In addition, certain benefits payable upon a participant's death do not fail to be considered vested solely because the participant is still living. The benefits to which this rule applies are a qualified pre-retirement survivor annuity (QPSA), a post-retirement survivor annuity such as the annuity paid after a participant's death under a joint-and-survivor or certain-and-continuous option, and a benefit that returns a participant's accumulated mandatory employee contributions.

Also, a participant's pre-retirement lump-sum death benefit (other than a benefit that returns accumulated mandatory employee contributions or a QPSA paid as a lump sum) is not vested if the participant is living. Similarly, a disability benefit is not vested if the participant is not disabled. The following examples illustrate these concepts:

Example 1 – Under Plan A, if a participant retires at or after age 55 but before age 62, the participant receives a temporary supplement from retirement until age 62. The supplement is not a qualified social security supplement (QSUPP) as defined in Treasury Reg. §1.401(a)(4)-12 and is not protected under Code section 411(d)(6). The temporary supplement is considered vested, and its value is included in the premium funding target, for each participant who, on the UVB Valuation Date, is at least 55 but less than 62, and thus eligible for the supplement. The calculation is unaffected by the fact that the plan could be amended to remove the supplement after the UVB Valuation Date.

Example 2 – Plan B provides a QPSA upon the death of a participant who has five years of service, at no charge to the participant. The QPSA is considered vested, and its value is included in the premium funding target, for each participant who, on the UVB Valuation Date, has five years of service and is thus eligible for the QPSA. The calculation is unaffected by the fact that the participant is alive on that date.

How to Determine Unfunded Vested Benefits

Estimated Premium Funding Target

If the Premium Funding Target is not known by the due date, an estimated Variable-rate Premium may be paid on the due date. Doing so triggers a requirement to submit an amended filing at a later date to reconcile the actual Variable-rate Premium with the estimate. In the event the actual Variable-rate Premium is greater than the estimate, penalties for late payment will be waived if the estimate meets certain criteria and the reconciliation filing is made by the end of the sixth calendar month that begins on or after the premium filing due date (generally April 30th after year end for calendar year plans). For additional information, see "[Automatic Penalty Waiver for Certain Late Variable-rate Premiums](#)" in the "Late Payment Charges" section.

Fair Market Value of Plan Assets

The asset measure underlying the UVB calculation is determined the same way assets are determined under ERISA section 303 except without regard to any averaging method. For premium purposes, the market value of assets is measured on the UVB Valuation Date and adjusted to account for contribution receipts using the same methodology as is used for funding purposes.

Adjustments for prior year contributions

If contributions for the plan year prior to the Premium Payment Year (or, in the case of a plan using the Lookback Rule, the plan year preceding the Lookback Year) are made after the UVB Valuation Date, the market value is increased to reflect the value of such contributions discounted to the UVB Valuation Date. The discount rate for this purpose is the ERISA section 303(h)(2)(A) effective interest rate for the plan year for which the contributions were made (as reported in item 5 of Schedule SB). For example, consider a calendar year plan with a January 1 UVB Valuation Date.

Contributions made in 2019 for the 2018 plan year are included in the January 1, 2019 asset value. Such contributions are discounted from the date made to January 1, 2019 using the 2018 effective interest rate. Such contributions are included only to the extent made by the date of the premium filing.

Adjustments for current year contributions

If contributions for the Premium Payment Year (or, in the case of a plan using the Lookback Rule, the Lookback Year), are made before the UVB Valuation Date, the market value is decreased to exclude the adjusted value of these current year contributions. For this adjustment, such are increased to the UVB Valuation Date using the ERISA section 303(h)(2)(A) effective interest rate for the plan year for which they were made. This can happen only if the UVB Valuation Date is after the beginning of the plan year.

Comparison to asset value reported on Schedule SB

In the case of:

- a Small Plan using the Lookback Rule, the asset value reported is generally the same as the market value of assets required to be reported in the Schedule SB for the Lookback Year (item 2a).
- any other plan, the asset value reported here is generally the same as the market value of assets required to be reported in the Schedule SB for the Premium Payment Year (item 2a).

The amounts would differ only if a premium filing is made before the premium due date and prior year contributions are made after the premium filing is made (and thus not included in assets).

How to Determine Unfunded Vested Benefits

Summary

The following table summarizes the various dates and assumptions that are used to determine Variable-rate premiums for 2019. Although Participant Count Date is not used to determine the Variable-rate premium, it is included in the table so that all of the variables affecting premium calculations are contained in one summary. Please review the column that relates to your plan.

Summary¹²

	If Lookback Rule Applies		If Lookback Rule Does Not Apply	
	Standard Premium Funding Target	Alternative Premium Funding Target	Standard Premium Funding Target	Alternative Premium Funding Target
Participant Count Date	Last day of 2018 plan year	Last day of 2018 plan year	Last day of 2018 plan year	Last day of 2018 plan year
UVB Valuation Date	Funding valuation date for 2018	Funding valuation date for 2018	Funding valuation date for 2019	Funding valuation date for 2019
Benefits reflected in Premium Funding Target	Vested portion of benefits included in 2018 funding target	Vested portion of benefits included in 2018 funding target	Vested portion of benefits included in 2019 funding target	Vested portion of benefits included in 2019 funding target
Assumptions				
<ul style="list-style-type: none"> Discount rates 	Spot segment rates for month before 2018 plan year begins	Whatever would have been used for funding purposes for 2018 if Interest Rate Stabilization Rules had not applied. ¹³	Spot segment rates for month before 2019 plan year begins	Whatever would be used for funding purposes for 2019 if Interest Rate Stabilization Rules did not apply ¹¹
<ul style="list-style-type: none"> All other assumptions 	Whatever was used for funding purposes for 2018	Whatever was used for funding purposes for 2018	Whatever is used for funding purposes for 2019	Whatever is used for funding purposes for 2019
At-risk status	Whatever status was in effect for funding purposes for 2018	Whatever status was in effect for funding purposes for 2018	Whatever status is in effect for funding purposes for 2019	Whatever status is in effect for funding purposes for 2019
At-risk load				
<ul style="list-style-type: none"> 4% of liability portion of load 	If the plan was at-risk for 2018 for funding purposes, 4% of what the Standard Premium Funding Target would be if the plan wasn't at-risk. Otherwise, N/A.	If the plan was at-risk for 2018 for funding purposes, 4% of what the Alternative Premium Funding Target would be if the plan wasn't at-risk. Otherwise, N/A.	If the plan is at-risk for 2019 for funding purposes, 4% of what the Standard Premium Funding Target would be if the plan wasn't at-risk. Otherwise, N/A.	If the plan is at-risk for 2019 for funding purposes, 4% of what the Alternative Premium Funding Target would be if the plan wasn't at-risk. Otherwise, N/A.
<ul style="list-style-type: none"> Per-participant portion of load 	The same amount included in the liability for funding purposes for 2018	The same amount included in the liability for funding purposes for 2018	The same amount included in the liability for funding purposes for 2019	The same amount included in the liability for funding purposes for 2019

¹² Table entries assume plan is not a New or Newly Covered Small Plan. The terms "funding" or "for funding purposes" in this table mean amounts determined under ERISA Section 303. References to 2018 or 2019 relate to the plan year beginning in such year.

¹³ This is not the case for plan that are not subject to PPA for funding purposes or frozen airline plans that made an election under section 402 of PPA. See "[Plans Subject to Special Funding Rules](#)" on next page.

How to Determine Unfunded Vested Benefits

Plans Subject to Special Funding Rules

Plans covered by any of the special funding rules listed below must determine UVBs in the same manner (and using the same discount rate basis) as all other plans. This includes:

- The Cooperative and Small Employer Charity Pension Flexibility Act, Public Law 113-97, dealing with certain defined benefit pension plans maintained by more than one employer.
- Section of 402(b) of the Pension Protection Act of 2006, Public Law 109-280, dealing with certain frozen plans of commercial passenger airlines and airline caterers.

Spinoffs, Mergers and Consolidations

General

This section provides additional guidance for plans involved in a Spinoff, Merger, or Consolidation. Plans considering any of these transactions are encouraged to read this section carefully before finalizing the transaction because decisions that have little impact on funding requirements can have a significant impact on the amount of premium due and the due date. For example, with respect to a non *de minimis* Spinoff to a New Plan, the aggregate premium due for both plans will generally be less if the Spinoff occurs at the beginning of the plan year. Also, when combining two plans, aggregate premium amounts will differ depending on, for example, whether Plan A is merged into Plan B, Plan B is merged into Plan A, or the two plans are consolidated into a New Plan C.

Note that as the result of one of these transactions, a plan could become a Small Plan for the first time or cease to be a Small Plan. Filers are cautioned to review the Lookback Rule provisions in either of these situations (See “How to Determine UVBs” section).

Information about Spinoffs, Mergers and Consolidations are reported by all PBGC-covered plans involved in the transaction as part of the Comprehensive Premium Filing in items that request information about “Transfers from other plans” and “Transfers to other plans”. See “Description of Data Elements” section, items 14 and 15.

Spinoffs

A “Spinoff” is a transaction in which a plan (the Transferor Plan) transfers a portion of its assets and/or liabilities to another plan (the Transferee Plan). The Transferee Plan may be a New Plan, created by the Spinoff, or it may be a pre-existing plan.

If the Transferee Plan is a New Plan, all of the special rules applicable to New Plans apply. For example, for the New Plan’s first plan year:

- Depending on when the transaction occurs and the plan’s UVB Valuation Date, the due date might be later than the Normal Due Date (see “[When to File](#)” section).
- The applicable Participant Count Date for purposes of determining the Flat-rate Premium is the first day of the premium payment year (see “How to Count Participants” section).
- The Standard Premium Funding Target is used to determine the Variable-rate Premium unless the plan makes a timely election to use the Alternative Premium Funding Target. This is the case even if the Transferor Plan had an election to use the Alternative Premium Funding Target in effect or revoked such an election fewer than five years prior to the Spinoff.
- If the plan is a Small Plan, the Lookback Rule does not apply because there is no prior plan year to look back to. The Lookback Rule will automatically apply for the plan’s second year of existence, unless the plan opts out of using that rule (see “[How to Determine Unfunded Vested Benefits](#)”).
- If the Spinoff is *de minimis* (i.e., if the plan is not a Continuation Plan) and the plan is a Small Plan, the plan is exempt from the Variable-rate premium.

Mergers

A “Merger” is a transaction in which a plan transfers all of its assets and liabilities to an existing plan and, as a result, ceases to exist. In essence, the Transferor Plan becomes part of the Transferee Plan.

Spinoffs, Mergers and Consolidations

If, as the result of a Merger, a plan ceases to exist, in addition to reporting information about the transaction, note that the fact that the filing is the last filing for the plan must also be reported.¹⁴ (See “Description of Data Elements” section, items 13).

Consolidations

A “Consolidation” is a transaction in which two or more plans transfer all of their assets and liabilities to a New Plan and, as a result, cease to exist (because the Transferor Plans become part of the new transferee plan). It differs from a Merger because in a Merger, the Transferee Plan existed before the transaction. In a Consolidation, the Transferee Plan is a New Plan that is created in the Consolidation. Thus, the plan that exists after a Consolidation follows the premium filing rules for New Plan.

If, as the result of a Consolidation, a plan ceases to exist, in addition to reporting information about the transaction, note that the fact that the filing is the last filing for the plan must also be reported. (See “Description of Data Elements” section, items 13).¹³

Examples

The following examples illustrate the effect of these transactions on premiums. For purposes of these examples, assume all plans have been covered by PBGC since inception and that none of the affected plans are Small Plans (which means they all have beginning of year valuation dates and none of them use the Lookback rule for determining unfunded vested benefits).

Example 1 (Beginning of Plan Year Spinoff to a New Plan) — Plan B is created at the beginning of 2019 as the result of a non *de minimis* Spinoff from Plan A (a plan with a calendar year plan year). Plan B will also have a calendar year plan. Plan A made an election to use the Alternative Premium Funding Target in 2010; such election is still in effect.

For 2019, premiums for these plans are determined as follows:

- Due date — Premiums for both plans are due October 15, 2019.
- Participant Count Date:
 - Plan A: Because the Spinoff occurred at the beginning of Plan A’s plan year, Plan A’s 2019 Flat-Rate Premium is based on the participant count on the first day of the plan year (January 1, 2019) instead of the last day of the prior year (December 31, 2018). See special rule re: beginning of year non *de minimis* Spinoffs in “[How to Count Participants](#)” section.
 - Plan B: Because Plan B is a New Plan, its Participant Count Date is also the first day of the plan year (January 1, 2019).

Note – if the Spinoff had been *de minimis*, the special Participant Count Date rule would not apply (i.e., Plan A’s Participant Count Date would have been December 31, 2018). Because Plan B’s Participant Count Date is January 1, 2019, that means both plans would have owed Flat-Rate Premiums on behalf of the participants that were spun off from Plan A to Plan B.

¹⁴ If a plan ceases to exist because of a merger or consolidation and the transaction occurs after the premium filing is submitted, please contact PBGC via email at premiums@pbgc.gov, so we can update our records. Absent this notification, PBGC will likely contact the plan (that no longer exists) to inquire about why the subsequent year’s filing isn’t submitted.

Spinoffs, Mergers and Consolidations

- UVB Measurement Date — Both plans measure Unfunded Vested Benefits as of January 1, 2019.
- Premium Funding Target:
 - Plan A: The Alternative Premium Funding Target is used unless the election is revoked as part of the 2019 Comprehensive Premium Filing.
 - Plan B: As a New Plan, the Variable-rate Premium must be determined using the Standard Premium Funding Target unless the Plan makes a timely election to use the Alternative Premium Funding Target (as part of its 2019 filing).
- Proration — Neither plan qualifies to pro-rate its 2019 premium.
- Reporting on Comprehensive Premium Filing — Plan A reports the Spinoff in the “Transfers to other plans” item and Plan B reports the Spinoff in the “Transfers from other plans” item.

Example 2 (Mid-year Spinoff to a New Plan) — Plan B is created on July 1, 2019 as the result of a Spinoff from Plan A. Plan B’s first plan year will be a short plan year (i.e., July 1, 2019 – December 31, 2019). Plan A made an election in 2010 to use the Alternative Premium Funding Target that is still in effect. For 2019, premiums are determined as follows:

- The Spinoff has no effect on Plan A’s 2019 premium obligation. That means:
 - Due Date: October 15, 2019.
 - Flat-rate Premium: Based on the participant count as of December 31, 2018. There is no adjustment for participants who are spun off later in the year.
 - Variable-rate Premium: Unfunded Vested Benefits are:
 - Measured as of January 1, 2019. There is no adjustment for the assets and/or liabilities that are spun off later in the year.
 - Determined using the Alternative Premium Funding Target unless the Plan makes a timely election to revoke the prior election (as part of its 2019 filing).
- Plan B is subject to special rules because it is a New Plan. For example:
 - Due date: April 15, 2020 (i.e., the 15th day of the 10th full calendar month after July 1, 2019).
 - Flat-rate Premium: Based on the participant count on July 1, 2019. The fact that some of these participants may have been included in the participant count for Plan A’s 2019 Flat-rate premium has no bearing on Plan B’s Flat-rate Premium.
 - Variable-rate Premium: Unfunded Vested Benefits are:
 - Measured on the same date used to determine funding requirements for Plan B’s first (short) plan year.
 - Determined using the Standard Premium Funding Target unless the Plan makes a timely election to use the Alternative Premium Funding Target (as part of its 2019 filing).

Spinoffs, Mergers and Consolidations

- Proration: Because the first plan year is a short plan year and the plan was created as the result of a Spinoff, the 2019 premium is prorated. There are six months in the short plan year (July 1, 2019 – December 31, 2019), so the plan owes 50% (i.e., 6/12) of the otherwise determined premium. Note that for proration purposes, a partial month is treated as a full month. So, had the Spinoff had occurred on July 25th instead of July 1st, the result would be the same.
- Reporting on Comprehensive Premium Filing — Plan A reports the Spinoff in the “Transfers to other plans” item. Plan B reports the Spinoff in the “Transfers from other plans” item.

Example 3 (Mid-year Spinoff to a pre-existing plan) — Plans A and B are both calendar year plans. Both plans made an election in 2016 to use the Alternative Premium Funding Target that is still in effect. On July 1, 2019, Plan A spun off assets and liabilities for participants in Location XYZ to Plan B.

In this scenario, the Spinoff has no effect on the amount of premium owed or the due date for the 2019 plan year of either plan. Plan A reports the Spinoff in the “Transfers to other plans” item and Plan B reports the Spinoff in the “Transfers from other plans” item.

Example 4 (Beginning of year Merger) — Plans A and B are both calendar year plans. On January 1, 2019, Plan B merges into Plan A. The merger is not *de minimis*.

The Merger’s impact on 2019 premiums is as follows:

- Because the Merger (1) was non *de minimis* and (2) occurred at the beginning of Plan A’s plan year, Plan A’s 2019 flat-rate Premium is based on the participant count on the first day of the plan year (January 1, 2019) instead of the last day of the prior year (December 31, 2018). (See special rule re: beginning of year Mergers in “[How to Count Participants](#)” section).
- Plan B is not required to submit a 2019 Comprehensive Premium Filing because the plan ceased to exist on what would have been the first day of Plan B’s 2019 plan year. In other words, the Merger is deemed to be effective before the 2019 plan year begins.
- Plan A reports the Merger in the “Transfers from other plans” item. Because the Merger did not occur until after the due date for Plan B’s 2018 Comprehensive Premium Filing, PBGC expects that Plan B would not have reported that 2018 would be its “Final Filing” as part of its 2018 filing. As long as Plan A properly reported the Merger in its 2019 filing, it is not necessary to amend Plan B’s 2018 filing to indicate that it’s the final filing.

Note – if the Merger had been *de minimis*, the special Participant Count Date rule would not apply (i.e., Plan A’s Participant Count Date would have been December 31, 2018). Because Plan B owes no premium for 2019, that means neither plan would have owed Flat-Rate Premiums on behalf of the former Plan B participants that were merged into Plan A at the beginning of 2019.

Example 5 (Mid-year Merger) — Plan A is a calendar year plan. Plan B has a plan year that begins on March 1. On February 1, 2019, Plan B merges into Plan A.

The Merger’s impact on 2019 premiums is as follows:

Spinoffs, Mergers and Consolidations

- The Merger has no effect on Plan A's premium obligation. Among other things, that means the Flat-rate Premium is based on the participant count as of December 31, 2018 (i.e., the Plan B participants that merged into Plan A on February 1, 2019 are not included).
- Plan B is not required to submit a Comprehensive Premium Filing because the plan ceased to exist before its 2019 plan year would have begun (i.e., before March 1, 2019).
- Plan A reports the Merger in the "Transfers from other plans" item.
- Because the Merger did not occur until after the due date for Plan B's 2018 Comprehensive Premium Filing, PBGC expects that Plan B would not have reported that 2018 would be its "Final Filing" as part of its 2018 filing. As long as Plan A properly reports the Merger in its 2019 filing, it is not necessary to amend Plan B's 2018 filing to indicate that it's the final filing.

Example 6 (Mid-year Merger) — Plan A is a calendar year plan. Plan B has a plan year that begins on October 1. Plan B merges into Plan A on December 1, 2019. The Merger's impact on premiums is as follows:

- Plan A: The Merger has no effect on the amount of Plan A's 2019 premium. Because the Merger occurs after the due date for Plan A's 2019 Comprehensive Premium Filing, Plan A will not report the Merger in the "Transfers from other plans" item until the 2020 filing.
- Plan B: Although Plan B's 2019 plan year is a short plan year (October 1, 2019 – November 30, 2019), Plan B's 2019 premium is not pro-rated because the short plan year was created as the result of a mid-year Merger. In its 2019 Comprehensive Premium Filing, Plan B reports the Merger in the "Transfers to other plans" item and in the "Final Filing" item.

Example 7 (Consolidation) - On March 1, 2019, three plans (A, B, and C) were consolidated into a New Plan D and thus ceased to exist. Prior to the Consolidation, Plan A had a calendar year plan year. Plan B and C's plan years began on March 1 and October 1, respectively. Neither Plan A, B or C was a Small Plan. Plan D has a calendar year plan year.

2019 premiums are determined as follows:

- Plan A – The Consolidation has no effect on the amount of the 2019 premium owed or the due date. Despite the short plan year (January 1, 2019 – February 28, 2019), the plan does not qualify for premium pro-ration.
- Plan B – Because the plan ceased to exist on what would have been the first day of Plan B's 2019 plan year, Plan B is not required to submit a 2019 Comprehensive Premium Filing. In other words, the Consolidation is deemed to be effective before the 2019 plan year begins.
- Plan C – Because the Consolidation occurred before Plan C's 2019 plan year began, Plan C is not required to submit a 2019 Comprehensive Premium Filing. Although the Consolidation occurs during Plan C's 2018 final short plan year (October 1, 2018 – February 28, 2019), it has no effect on the due date or the amount due for 2018 (i.e., the plan does not qualify for premium pro-ration).
- Plan D – Because Plan D is a New Plan and, because it was created as the result of a Consolidation, it is also a Continuation Plan. Like all New Plans, Plan D owes premiums for its first (short) plan year of coverage March 1, 2019 – December 31, 2019. Because the short plan year was created as the result of a Consolidation, the premium is prorated.

Spinoffs, Mergers and Consolidations

The Participant Count Date is March 1, 2019. The fact that 2019 Flat-rate Premiums for some, or all, of those participants might have been paid by Plan A or Plan B has no impact on Plan D's Flat-rate Premium.

The Variable-rate Premium must be determined using the Standard Premium Funding Target unless the Plan makes a timely election to use the Alternative Premium Funding Target (as part of its 2019 filing).

- Other reporting
 - Plans A reports the Consolidation in item 15 (Transfers to other plans) of its 2019 filing and indicates that its 2019 filing will be the last filing in item 13.
 - Plan B does not report the Consolidation because it occurred after the 2018 filing was due.
 - Plan D reports all three transfers in item 14 (Transfers from other plans) of its 2019 filing.

Data to be Submitted

Form is for Illustrative Purpose Only

Amended filing

2019 PBGC Comprehensive Premium Filing

Disaster Relief

Part I – General Plan Information

1 Plan sponsor information

a Name _____

b Six-digit business code _____

c First six digits of CUSIP number _____

2 Plan administrator information

a Name _____

b Address line 1 _____

c Address line 2 _____

d City _____

e State _____

f Zip _____

g Country (if not U.S.) _____

h Contact person

(1) Name (for "attention" line of mailings) _____

(2) e-mail address _____ (3) Phone number: _____ - _____ - _____ ext _____

i Alternative phone number for Insured Plans List on pbgc.gov: _____ - _____ - _____ ext _____

3 Additional plan contact (optional)

(1) Name _____

(2) e-mail address _____ (3) Phone number: _____ - _____ - _____ ext _____

4 Plan information

a Plan name _____

b Premium payment year information:

(1) This filing is for the premium payment year commencing __/__/____ and ending __/__/____.

(2) For the premium payment year, is the plan a "small plan" (see [definitions](#) section of instructions)? Yes No

(3) If the plan year commencement date has changed since the most recent PBGC filing as a result of a plan amendment changing the plan year, enter the date the plan year change was adopted __/__/____.

(4) Check box if plan qualifies to pay a prorated premium for this premium payment year.

c Employer Identification Number and Plan Number information:

(1) EIN and PN: EIN _____ PN _____

(2) If the EIN and PN are not **both** the same as on the most recent premium filing, enter EIN and PN from most recent premium filing: EIN _____ PN _____. Otherwise, skip to item 4c(3).

(3) If the EIN and PN are not **both** the same as on the 2018 Form 5500, enter EIN and PN from 2018 Form 5500 and provide explanation: Otherwise, skip to item 4d. EIN _____ PN _____. Explanation _____

d Plan effective date __/__/____

e Plan type: Multiemployer Single-employer (including multiple-employer plans)

f Check box if plan is a new or newly covered plan and provide the following information:

(1) Adoption date __/__/____ (2) Date coverage began on __/__/____.

(3) Is the plan a "continuation plan" (see [definitions](#) section of instructions)? Yes No

Data to be Submitted

Part II – Flat-Rate Premium Information	
5 Flat-rate premium	
a Participant count date: Month ___ Day ___ Year ___	
b Flat-rate premium calculation	
(1) Applicable rate (Single-employer plans enter \$80; Multiemployer plans, enter \$29)	_____
(2) Participant count as of participant count date	
Active: _____	Terminated vested _____
Retirees and beneficiaries: _____	Total: _____
(3) Flat-rate premium (item 5b(1) x item 5b(2))	

Part III – Variable-rate Premium Information	
Multiemployer plans – Skip to Part IV	
<i>Complete item 6 only if the plan is electing, or revoking an election, to use the Alternative Premium Funding Target instead of the Standard Premium Funding Target; otherwise skip to item 7.</i>	
6 Alternative Premium Funding Target Election or Revocation	
a <input type="checkbox"/> <i>Election - Check box to elect to use the Alternative Premium Funding Target instead of the Standard Premium Funding Target. The election will be effective — and the plan will be required to use the Alternative Premium Funding Target — beginning with this premium payment year and for all subsequent plan years unless and until the election is subsequently revoked.</i>	
b <input type="checkbox"/> <i>Revocation - Check box to revoke a prior election to use the Alternative Premium Funding Target. The revocation will be effective — and the plan will be required to use the Standard Premium Funding Target — beginning with this premium payment year and for all subsequent plan years unless and until a new election is subsequently made.</i>	
Note — Elections or Revocations must remain in place for at least five years.	
7 Variable-rate premium (VRP)	
a VRP exemptions – If an exemption applies, check applicable box and skip to item 8.	
<input type="checkbox"/> New or newly covered small plan other than a continuation plan	<input type="checkbox"/> No vested participants
<input type="checkbox"/> Standard termination with a final distribution during the premium payment year	<input type="checkbox"/> 412(e)(3) plan
<input type="checkbox"/> Standard termination with a proposed termination date in a prior year (proposed termination date: __/__/____)	
b VRP small employer cap qualification – <input type="checkbox"/> Check box if this plan qualifies for the small employer cap applicable to certain plans of small employers (those with 25 or fewer employees). If box is checked, items 7c through 7g may, but need not, be omitted.	
c Assumptions and methods used to determine premium funding target	
(1) Premium funding target method: <input type="checkbox"/> Standard <input type="checkbox"/> Alternative	
(2) Discount rate(s): 1 st segment ___% 2 nd segment ___% 3 rd segment ___% <input type="checkbox"/> N/A, full yield curve used	
(3) UVB valuation date: Month ___ Day ___ Year ___	
d Premium funding target as of UVB valuation date – <input type="checkbox"/> Check box if the reported premium funding target information is an estimate.	
(1) Attributable to active participants	_____
(2) Attributable to terminated vested participants	_____
(3) Attributable to retirees and beneficiaries receiving payment	_____
(4) Total premium funding target (item 7d(1) + item 7d(2) + item 7d(3))	_____
e Market value of assets as of UVB valuation date	

f Unfunded vested benefits (excess, if any, of item 7d(4) over item 7e, rounded up to the next \$1,000)	

g Uncapped variable-rate premium (item 7f x 0.043)	

h Maximum VRP	
(1) MAP-21 cap (\$541 x item 5b(2))	_____
(2) Small employer cap, if applicable (\$5 x item 5b(2) x item 5b(2)) – Omit this item if plan is not eligible for this cap	_____
(3) Maximum variable-rate premium — If the plan qualifies for the small employer cap, the lesser of item 7h(1) and 7h(2). Otherwise, item 7h(1).	_____
i Variable-rate premium — If the plan qualifies for the small employer cap and item 7g was omitted, item 7h(3). Otherwise, the lesser of item 7g and item 7h(3).	

Data to be Submitted

Part IV – Total Premium Information

8 Premium proration (If the plan does not qualify for premium proration, skip to item 9)

a Number of months (complete and partial) in the short plan year _____

b Total premium before reflecting proration (item 5b(3) + item 7i, if applicable) _____

9 Total premium — If the plan does not qualify for premium proration, item 5b(3) + item 7i, if applicable. If the plan qualifies for premium proration, item 8b x item 8a ÷ 12. _____

Part V – Payment Information

10 Premium credit

a Payments made previously for this premium payment year _____

b Outstanding credit from the plan year immediately preceding the premium payment year _____

c Total (item 10a + item 10b) _____

11 Amount due (excess, if any, of item 9 over item 10c) _____

12 Treatment of overpayment

a Excess, if any, of item 10c over item 9 _____

b Treatment of balance (select one):

Credit towards next year's premium Refund by check

Refund by electronic funds transfer (ACH). If you select this option, complete item 12c.

c Information for ACH refund:

Type of account Checking Savings

Bank routing number _____

Account number _____

Part VI – Miscellaneous Information

13 Final filing – If this is the last filing for this plan, enter the date of event __/__/____ and check box that best describes why filing obligation is ceasing:

Merger/Consolidation Trusteeship Distribution pursuant to termination Cessation of covered status (enter explanation)

14 Transfers from other plans – If another plan transferred assets or liabilities to this plan since the most recent comprehensive premium filing, provide the following information with respect to each plan from which assets or liabilities were transferred (if transfer involved a new or newly covered plan, see [instructions](#)).

EIN _____ PN ____ Date of transfer __/__/____ Type of transfer: Merger Consolidation Spinoff Other

EIN _____ PN ____ Date of transfer __/__/____ Type of transfer: Merger Consolidation Spinoff Other

15 Transfers to other plans – If this plan transferred assets or liabilities to another plan since the most recent comprehensive premium filing, provide the following information with respect to each plan to which the assets or liabilities were transferred (if transfer involved a new or newly covered plan, see [instructions](#)).

EIN _____ PN ____ Date of transfer __/__/____ Type of transfer: Merger Consolidation Spinoff Other

EIN _____ PN ____ Date of transfer __/__/____ Type of transfer: Merger Consolidation Spinoff Other

16 Participation freeze – If, as of the beginning of the premium payment year, this plan is closed to new entrants, enter the date the plan became closed to new entrants __/__/____.

17 Accrual freeze – If, as of the beginning of the premium payment year, benefit accruals under this plan are partially or totally frozen, enter the date the freeze became effective __/__/____ and check box that best describes the nature of the freeze:

For all participants, both pay and service are frozen

For all participants, service is frozen, pay is not

For some participants, both pay and service are frozen

For some participants, service is frozen, pay is not

Other (enter explanation) _____

Data to be Submitted

18. Risk transfer activity – Do not complete this item if this is the last filing for this plan

a Lump Sum Windows: If the plan provided one or more Lump Sum Windows during the time period described in the instructions, report the number of persons eligible to elect a lump sum under any such window and the number who elected a lump sum:

(1) Persons eligible to elect lump sum _____

(2) Persons who elected lump sum _____

b Annuity purchases: If, during the time period described in the instructions, the plan purchased annuities for a group of people, report the number of persons for whom an annuity was purchased:

(1) Persons not in pay status when annuity was purchased: _____

(2) Persons in pay status when annuity was purchased: _____

19 Amended filing – Complete this item only if this is an amended filing

a If either the first or last day of the premium payment year reported in this amended filing (item 4b(1)) differs from what was reported in the filing that is being amended, provide the dates that were reported in the original filing:

Date premium payment year commenced __/__/____ Date premium payment year ended __/__/____.

b If the EIN and PN reported in this amended filing (item 4c(1)) are not **both** the same as what was reported in the filing that is being amended, enter the EIN and PN from the original filing: EIN _____ PN _____.

c If the reason for amending the filing is other than reconciling an estimated variable-rate Premium and the total premium reported in this amended filing (item 9) is less than the amount reported in the filing that is being amended, provide an explanation of why an amended filing is necessary:

20 Disaster relief – Complete this item only if this filing is subject to an extended due date per PBGC's disaster relief announcement.

a Identifying number of applicable IRS Disaster Relief News Release (e.g., CA-2019-01): __-____-__

b Is the plan administrator's address (i.e., address reported in item 2) in the disaster area covered by the applicable IRS News Release)? Yes No

c Complete this item only if item 20b is "No". Enter the information below as it relates to the person affected by the disaster.

(1) Name _____

(2) Role _____

(3) Address line 1 _____

(4) Address line 2 _____

(5) City _____

(6) State _____

(7) Zip _____

Data to be Submitted

Part VII – Certifications

21 Certification of Plan Administrator – The plan administrator must sign and complete this item.

I certify under penalty of perjury, to the best of my knowledge and belief, that all the information in the filing is true, correct and complete and has been determined in accordance with PBGC's premium regulations and instructions, except that if the filing reports an estimated premium funding target, the estimate is reasonable, takes into account the most current information available to the enrolled actuary, and has been determined in accordance with generally accepted actuarial principles and practices, and that if I received variable-rate premium information certified by an enrolled actuary for this filing, the variable-rate premium information in the filing is the same as the variable-rate premium information certified by the enrolled actuary.

Name of person signing: First name _____ Last name _____

E-mail address

Signature

--- - --- ext ---
Telephone

---/---/---
Date

22 Certification of Enrolled Actuary – An enrolled actuary must sign and complete this item unless the plan is (1) a multiemployer plan, (2) exempt from the variable-rate premium, or (3) eligible for the small employer cap, paying the maximum VRP and not reporting the uncapped VRP.

I certify under penalty of perjury, to the best of my knowledge and belief, that the variable-rate premium information in the filing is true, correct and complete and has been determined in accordance with PBGC's premium regulations and instructions; except that if the premium funding target is estimated, the estimate is reasonable, takes into account the most current information available to me and has been determined in accordance with generally accepted actuarial principles and practices.

Name of person signing: First name _____ Last name _____

Date

Description of Data Elements

Overview

This section provides a description of each required data element presented in the same order as the “form” used to illustrate the data elements (see “[Data to be Submitted](#)” section). Item numbers are presented solely to facilitate understanding. The My PAA screens do not include item numbers. If you are using private-sector software, item numbers may or may not be included. We recommend you review these instructions with a copy of the “form” in front of you.

Note for plans with more than one plan year beginning in 2018 or 2019:

References in these instructions to the 2018 plan year (and to filings for the 2018 plan year) should be considered to refer to your plan’s most recent complete plan year. For example, a plan that changes its plan year could have two plan years beginning in calendar 2019. When such a plan makes its premium filing(s) for its second 2019 plan year, the references in these instructions to the 2018 plan year (and to filings for the 2017 plan year) should be considered to refer to the plan’s first 2019 plan year (and to filings for that plan year), because that is the plan’s most recent complete plan year. Similarly, if your plan had two plan years beginning in calendar 2018, the references in these instructions to the 2018 plan year (and to filings for the 2018 plan year) should be considered to refer to the plan’s second 2018 plan year, which is the plan’s most recent complete plan year.

Note about reporting dollar amounts

With the exception of total premium, premium credits, the amount due PBGC, and the amount of any overpayment, money amounts reported should be in dollars only (no cents). Unfunded vested benefits are rounded up to the next \$1,000.

Amended Filing

Check this box only if this filing is an amendment to a previously submitted filing for the 2019 plan year.

Note that a Variable-rate Premium reconciliation filing (in which you provide final Premium Funding Target information after having reported an estimated Premium Funding Target) is considered an amended filing. If you amend a comprehensive filing for a reason other than reconciling an estimated Variable-rate Premium and the amended filing shows a lower premium than the amount that was reported in the filing that is being amended, you must provide an explanation of the specific circumstances or events that caused the reduction. See the “[Correcting Errors, Credit Balances and Reconciling Estimates](#)” section for more information.

If you are amending a filing for a plan year that did not begin in 2019, the rules in this document do not apply.

Disaster Relief

If your plan is eligible for disaster relief, check the box and be sure to complete item 20. For more information, see [PBGC’s Disaster Relief web page](#).

Instructions for Part I – General Plan Information

1 Plan sponsor information

- a Report the name of the Plan Sponsor.

Description of Data Elements

b Business Code – Report the six-digit business code that:

- In the case of a single-employer plan, best describes the primary nature of the plan sponsor’s business, and
- In the case of a multiemployer plan, best describes the predominant industry in which the active participants are employed (e.g., 484120 - General Freight Trucking Long-distance, 236110 - Residential Building Construction).

A list of business codes can be found in the instructions to Form 5500 and in the “[Premium Filings](#)” section of the [Employers and Practitioners Page](#) on [PBGC’s website](#). Because codes for the Premium Payment Year may not be available at the time you submit this filing, you may report the relevant code for either the Premium Payment Year or the prior year. See <https://www.pbgc.gov/sites/default/files/principal-business-activity-codes.pdf>.

Do not enter code 525100 (Insurance & Employee Benefit Funds) or 813930 (Labor Unions and Similar Labor Organizations) unless such code satisfies the above description of what the code represents.

c CUSIP number – If a CUSIP number has been assigned to publicly traded securities of the Plan Sponsor or any member of the Plan Sponsor’s controlled group, report the first six digits of the CUSIP number. Otherwise, leave this item blank.

A CUSIP number is a nine-digit number assigned to the publicly traded securities of a Plan Sponsor (or member of the Plan Sponsor’s controlled group) under the securities numbering system of the Committee on Uniform Securities Identification Procedures. The first six digits of the CUSIP number identify the securities issuer, the next two digits identify the specific securities issue, and the last digit is a check digit.

2 Plan administrator information

a-g Report the name and address of the Plan Administrator. Note that this is the address where we send official correspondence to the plan (e.g., an invoice for late payment charges).

h Report the name, e-mail address, and phone number of the person we should contact if we have any questions concerning this filing. We will send official correspondence to the “attention of” this person at the address reported in (b)-(g). In addition, unless a different phone number is provided in item 2i, the phone number reported in 2h will be posted on PBGC’s [Is My Pension Insured](#) list as the number plan participants should call if they have questions about their plan.

i If you would prefer plan participants with questions about their plan call a phone number other than the one reported in item 2h, report the phone number you would like them to use. If this item is left blank, the [Insured Plans List](#) on PBGC’s website will show the phone number reported in item 2h.

To keep our records current and enable us to send correspondence to the correct address, you should inform us of address changes as soon as they occur. You may do so by contacting us either in writing or by e-mail. See [Appendix 2](#) for contact information.

3 Additional plan contact (optional)

Although official correspondence related to premium filings is directed to the Plan Administrator (see item 2), some plans choose to provide contact information for another individual as well. In general, the contact person identified in this section will be used for questions that aren’t important enough for official correspondence. PBGC may also contact this individual if official inquiries to the Plan Administrator go unanswered.

Description of Data Elements

4 Plan information

- a** Plan name – Report the complete name of the plan as stated in the plan document. For example, “The ABC Company Pension Plan for Salaried Personnel.”
- b** Premium Payment Year information
- (1)** Report the date the Premium Payment Year commences and the date it ends. If you are filing for the first year of a New Plan, the Premium Payment Year commencement date (“PYC”) should be the plan effective date. If you are filing for a plan’s final year and the final year is a short plan year, enter the date the short plan year ends.
 - (2)** Check the appropriate box to indicate whether the plan is a Small Plan for the Premium Payment Year (See [definition](#) of Small Plan in Appendix 1).
 - (3)** If the plan year commencement date has changed since the most recent PBGC filing as a result of a plan amendment changing the plan year, enter the adoption date of the plan year change.
 - (4)** Check the box if plan qualifies to pay a prorated premium for this Premium Payment Year (see “Who must File” section for rules related to pro-ration).
- c** Employer Identification Number (EIN) and Plan Number (PN) information
- (1)** Report the nine-digit EIN of the Plan Sponsor and the three-digit PN of the plan.
 - (2)** If the EIN and PN for this filing do not both match exactly the EIN and PN reported in the most recent premium filing, report both the EIN and PN that were reported in the most recent premium filing. If this is the first premium filing for this plan, leave this item blank.

Please note the following exceptions that apply only if this is an amended filing:
 - If item 4c(2) was reported incorrectly in the original filing (*i.e.*, the filing that is being amended), provide the correct information in the amended filing.
 - If item 4c(2) was reported correctly in the original filing, provide the same information in the amended filing.
 - (3)** If the EIN and PN for this filing do not both match exactly the EIN and PN reported in the 2018 Form 5500, report both the EIN and PN that were reported in the 2018 Form 5500 and attach an explanation. If a 2018 Form 5500 was not required, leave this item blank.
- d** Plan effective date – Report the date the plan became effective.
- e** Plan type – Indicate whether the plan is a Multiemployer Plan or a Single-employer Plan.
- f** Information for New or Newly Covered Plans – If this is a New or Newly Covered Plan, check the box and complete the rest of item 4f.
- (1)** Adoption date – Enter the date the plan was adopted
 - (2)** Coverage date – Enter the date the plan became covered under Title IV. If the plan has had one or more periods of coverage, report the earliest date in the Premium Payment Year when the plan was covered under Title IV — not the date when the plan became covered in a prior year. If another plan transferred assets or liabilities to this New or Newly Covered Plan, be sure to complete the “Transfers from other plans” item (see [item 14](#)).
 - (3)** Continuation Plan – Check the box to indicate whether this New or Newly Covered Plan meets the definition of a Continuation Plan (see [definition](#)).

Description of Data Elements

Instructions for Part II – Premium Information

5 Flat-rate Premium

a Report the Participant Count Date. See “[How to Count Participants](#)” section for special rules relating to New Plans, Newly Covered Plans, Mergers and Spinoffs.

b Flat-rate Premium calculation

- (1)** Applicable rate – Enter the per-participant flat premium rate. For 2019, the rate is \$80 for Single-employer Plans and \$29 for Multiemployer Plans.
- (2)** Participant count – Report the number of participants covered by the plan on the Participant Count Date separately for active participants, terminated vested participants, retirees and beneficiaries receiving payment, and in total. See “[How to Count Participants](#)” section.
- (3)** Flat-rate Premium – Report the product of the Participant Count and the applicable premium rate. If the plan year is a short plan year, the required Flat-rate Premium may be a prorated portion of this amount; however, the amount reported in this item must reflect a full year’s premium.

Note that you must make a premium filing even if the Flat-rate Premium is \$0. This may happen, for example, if your plan is a New Plan that grants no past service credits, so that there are no Benefit Liabilities on the Participant Count Date. A plan with no Benefit Liabilities has no participants for premium purposes.

Instructions for Part III – Alternative Premium Funding Target Election/Revocation

This Part applies only to Single-employer Plans. Multiemployer Plans should skip to Part IV.

6 Alternative Premium Funding Target Election/Revocation

To be valid, an election must be made in accordance with these instructions and must be filed with PBGC on or before the deadline.

a *Election* - Check this box to make an election to use the Alternative Premium Funding Target first effective for this Premium Payment Year.

b *Revocation* - Check this box to revoke a prior election to use the Alternative Premium Funding Target that was in effect for the plan year immediately preceding the Premium Payment Year.

You may elect to use the Alternative Premium Funding Target to determine unfunded vested benefits instead of the Standard Premium Funding Target. Once an election is made, it remains in effect for all subsequent plan years unless and until it is subsequently revoked. You may revoke a prior election only if the Premium Payment Year begins at least five years after the beginning of the plan year for which the election was first applicable.

Similarly, if you revoke an election, you may not make a new election to use the Alternative Premium Funding Target until five years have passed.

If you are not sure if an election is in effect or when an election first took effect, you can find out by viewing your account history in My PAA.

See “[How to Determine Unfunded Vested Benefits](#)” section for more information on elections and revocations.

Description of Data Elements

7 Variable-rate Premium

This item relates to Variable-rate Premium information and applies only to Single-employer Plans.

In general, for 2019 the Variable-rate Premium is \$43 per \$1,000, or fraction thereof, of unfunded vested benefits as of the UVB Valuation Date, but no more than \$541 times the number of participants (i.e., the MAP-21 Cap). For certain plans of small employers, the Variable-rate Premium may be capped at an amount lower than the MAP-21 CAP (see [item 7b](#)).

Some Single-employer Plans are exempt from the Variable-rate Premium; others may have a Variable-rate Premium of \$0. In either case, this section must be completed in accordance with the following instructions.

a Exemptions – A Single-employer Plan may claim an exemption from the Variable-rate Premium if it meets the requirements for any of the exemptions described below:

- **New or Newly Covered Small Plans other than Continuation Plans** – Your plan qualifies for this exemption if it is a New or Newly Covered Plan and a Small Plan, but not a Continuation Plan. See [Definitions](#) section for more information about these terms.
- **Standard termination: closing out in current year** – Your plan qualifies for this exemption if it makes a final distribution of assets in a standard termination during the Premium Payment Year. This requirement means that, by year end, benefits for participants covered by the plan on the UVB Valuation Date will be distributed in accordance with PBGC’s standard termination regulation (29 CFR Part 4041) and PBGC coverage of such benefits will cease. See [79 FR 13547](#) (March 11, 2014) at 13553.

You may claim this exemption in anticipation of a full distribution by plan year-end even if that hasn’t happened by the time you submit the filing. However, if you fail to complete the final distribution by the end of the year, the exemption will not apply. In that case, you will need to amend the filing accordingly and late payment charges will be assessed on any Variable-rate Premium owed and paid after the applicable due date.

To avoid the possibility of late payment charges arising if the final distribution takes longer than expected, consider the alternative approach described in the “Short Plan Years” part of the “[Who Must File](#)” section.

- **Standard termination: proposed termination date in a prior year** — Your plan qualifies for this exemption if notices of intent to terminate in a standard termination were issued in accordance with ERISA section 4041(a)(2), setting forth a proposed termination date before the beginning of the Premium Payment Year.

To qualify for this exemption, it is not necessary that the plan make a final distribution of assets during the Premium Payment Year. However, this exemption is conditioned on the plan’s ultimately making a final distribution of assets in full satisfaction of its obligations under the standard termination. If that doesn’t happen, the premium that would otherwise have been required will be due retroactive to the applicable due date.

- **Plans with no vested participants** – Your plan qualifies for this exemption if the plan has no participants with vested benefits as of the UVB Valuation Date.
- **Section 412(e)(3) plans (formerly called 412(i) plans)** – Your plan qualifies for this exemption if the plan is described in section 412(e)(3) of the Code and regulations thereunder on the UVB Valuation Date.

If an exemption applies, check the applicable box to indicate which exemption applies and skip to item 8. If more than one exemption applies, check all applicable boxes.

Description of Data Elements

b Small-Employer Cap qualification – If the plan qualifies as a small-employer plan, the Variable-rate Premium may be capped at an amount lower than the MAP-21 Cap.

Determining whether a plan qualifies for the Small-Employer Cap – For this purpose:

- a plan is a small-employer plan if the aggregate number of employees of all contributing sponsors of the plan and all members of the contributing sponsors' controlled groups, as of the first day of the Premium Payment Year, is 25 or fewer,
- the aggregate number of employees is determined in the same manner as under section 410(b)(1) of the Code, taking into account the provisions of section 414(m) and (n) of the Code, but without regard to section 410(b)(3), (4), and (5) of the Code, and
- employees are counted as of the first day of the Premium Payment Year, not as of the Participant Count Date or the UVB Valuation Date.

Note that a plan with 25 or fewer participants does not necessarily qualify for the Small-Employer Cap because the eligibility criterion is based on employees, not the Participant Count. For example, if a plan has 15 participants, but there are more than 25 employees (taking into account all employees of all contributing sponsors of the plan and all members of their controlled groups), the plan does not qualify for the cap.

Also note that a plan with more than 25 participants might qualify for the cap. For example, consider a contributing sponsor with 20 employees, all of whom are participants in a plan. If the plan also covers 15 former employees who are either terminated vested or retired, there are 35 participants in total. This plan would qualify for the cap (assuming there are no other contributing sponsors and no controlled group members).

Reporting requirements – If your plan qualifies for this cap, check the box to report that fact.

If your plan qualifies for this cap, instead of calculating and reporting both the uncapped Variable-rate Premium and the maximum Variable-rate Premium and then paying the lesser of the two amounts, you may report and pay only the maximum Variable-rate Premium.

If you choose to not report the uncapped Variable-rate Premium, omit all items 7c through 7g and go directly to item 7h. Note that if you choose to pay the maximum Variable-rate Premium without determining whether it is less than the uncapped Variable-rate Premium, you may pay a larger Variable-rate Premium than required.

c Assumptions and methods used to determine Premium Funding Target

(1) Premium Funding Target method – Report whether you are using the Standard Premium Funding Target or the Alternative Premium Funding Target to determine unfunded vested benefits by checking the applicable box (*i.e.*, “Standard” or “Alternative”). Note that:

- The standard method must be used unless an election to use the alternative method is in effect.
- If an election to use the alternative method is in effect, you must use the alternative method. This is the case only if a valid election:
 - is made as part of a timely filing for the Premium Payment Year by checking the election box in item 6 of Part III, or
 - that was made in a prior year has not yet been revoked.
- Filers are encouraged to review prior filings or to review the Account History on My PAA to confirm whether an election to use the alternative method is in effect.

Description of Data Elements

- Checking the alternative box in item 7(c)(1) does not constitute an election. See [item 6](#) instructions.

For additional information on Premium Funding Target methods, see “[How to Determine Unfunded Vested Benefits](#)” section.

- (2) Discount rates – Report the discount rates used to determine the Premium Funding Target. For information on which rates to use, see “[How to Determine Unfunded Vested Benefits](#)” section.
- (3) UVB Valuation Date – Report the UVB Valuation Date for the Premium Payment Year. In the case of a Small Plan using the Lookback Rule, this date must be the valuation date for the Lookback Year. For any other plan this date must be the valuation date for the Premium Payment Year. **Note for Small Plans - For information about whether you should be using the Lookback Rule, see “[How to Determine Unfunded Vested Benefits](#)” section.**

d Premium Funding Target as of UVB Valuation Date

Report the Premium Funding Target (dollars only) calculated as described in the Premium Funding Target part of the “[How to Determine Unfunded Vested Benefits](#)” section. Report the amount separately for (1) active participants, (2) terminated vested participants, (3) retirees and beneficiaries receiving payment, and (4) the total premium funding target ((1)+(2)+(3)).

Estimated Premium Funding Targets – If the Premium Funding Target being reported in this filing is an estimate, check the box to report that fact. If you file on an estimated basis, you must ultimately make a reconciliation filing using the actual Premium Funding Target (by amending this filing). In the reconciliation filing, in addition to reporting the actual Premium Funding Target data, be sure to indicate that the reported amount is no longer an estimate by making sure the “estimate” box is no longer checked. See “[Correcting Errors, Credit Balances and Reconciling Estimates](#)” section for more information. See also the “[Late Payment Charges](#)” section for information on the automatic late payment penalty relief that may be available to plans paying estimated Variable-rate Premiums by the due date and later reconciling.

e Market value of assets – Report the fair market value of plan assets (dollars only) as of the UVB Valuation Date adjusted to reflect contribution receipts as described in the “[How to Determine Unfunded Vested Benefits](#)” section.

f Unfunded vested benefits – Report the excess (rounded up to the next \$1,000), if any, of the Premium Funding Target over the fair market value of assets.

g Uncapped Variable-rate Premium – Report the product of 0.043 and the amount of unfunded vested benefits.

h Maximum Variable-rate Premium

(1) MAP-21 Cap – Report the product of the Participant Count and \$541.

(2) Small Employer Cap – Report the product of \$5 and the Participant Count squared. *If the plan does not qualify for the Small Employer Cap, this item must be left blank.*

(3) Maximum Variable-rate Premium – If the plan qualifies for the Small Employer Cap, report the lesser of the Small Employer Cap and the MAP-21 Cap. Otherwise, report the MAP-21 Cap.

i Variable-rate Premium – Report the lesser of the maximum Variable-rate Premium and the uncapped Variable-rate Premium. *If the plan qualifies for the Small Employer Cap and chooses not to report uncapped Variable-rate premium data, report the maximum Variable-rate Premium.*

If this is a short plan year of coverage, the required Variable-rate Premium may be a prorated portion of this amount; however, the full year’s premium amount must be reported in this item.

Description of Data Elements

Instructions for Part IV – Total Premium Information

8 Premium proration (If the plan does not qualify for premium proration, skip to item 9. If the plan does qualify for premium proration, make sure the dates entered in item 4b regarding the date the plan year begins and ends reflects the short plan year.)

a Number of months in the short plan year – Report the number of months (complete and partial) in the short plan year. For this purpose, each plan month (*i.e.*, each month in the plan year) generally begins on the same day of each successive calendar month. For example, if the plan year begins on July 1, the first day of each successive calendar month is the beginning of a new month; similarly, if the plan year begins on January 15, the second plan month begins on February 15, the third plan month on March 15, etc. Thus, if a short final year begins on January 1 and ends on June 1, there would be six (full or partial) months in the short year. (The last (partial) month, beginning (and ending) on June 1, would count as a full month for purposes of prorating the premium.) Similarly, if a short first year begins on July 31 and ends on December 31, there would also be six (full or partial) months in the short year.

There are two special rules when a plan year begins at or near the end of a calendar month:

- If the plan year begins on the last day of a calendar month, successive plan months begin on the last day of successive calendar months. For example, if the plan year begins on November 30, successive plan months begin on December 31, January 31, the last day of February (the 28th or 29th), March 31, etc.
- If the plan year begins on the 29th or 30th of a calendar month other than February, the plan month beginning in February begins on the last day of February. For example, if the plan year begins on November 29, successive plan months begin on December 29, January 29, the last day of February (the 28th or 29th), March 29, etc. If the plan year begins on December 30, successive plan months begin on January 30, the last day of February (the 28th or 29th), March 30, April 30, etc.

Counting months for New Plans – The short first year of a New Plan is treated as beginning on the Participant Count Date (*i.e.*, the plan effective date).

Counting months for Newly Covered Plans – Although the Premium Payment Year for a Newly Covered Plan is, most likely, a full year, premiums are due only for the portion of the year the plan is covered by PBGC. Therefore, for purposes of prorating the premium for the first year of coverage, a Newly Covered Plan's first year of coverage is treated as beginning on the date when the plan becomes covered under ERISA section 4021

Counting months for terminating plans – The (short) plan year of a terminating plan's final year is treated as ending on:

- for a Multiemployer Plan that distributed all its assets pursuant to ERISA section 4041A, the date the distribution is completed; or
- for a Single-employer Plan, the earlier of:
 - the date on which the distribution of the plan's assets in satisfaction of all Benefit Liabilities was completed; or
 - the date that a trustee for the terminating plan was appointed under ERISA section 4042.

b Total premium before proration – Report the sum of the Flat-rate Premium and, if applicable, the Variable-rate Premium.

Description of Data Elements

9 Total premium

- If the plan does not qualify for premium proration, report the sum of the Flat-rate Premium and, if applicable, the Variable-rate Premium.
- If the plan qualifies for premium proration, multiply the total premium before reflecting proration by the number of months (complete and partial) in the short plan year and then divide by 12. Round to two decimal places after completing the calculation.

If this amount includes cents, report the exact amount (dollars and cents), not a rounded amount.

Instructions for Part V – Payment Information

10 Premium credit

Report the total amount of premium credits available to offset the premium due. Premium credits include:

- Any payments made for 2019 (including an estimated Variable-rate Premium when amending the filing to reconcile the estimate; see “[Correcting Errors, Credit Balances and Reconciling Estimates](#)” section), and
- Any overpayment of the 2018 premium filing for which a refund was not requested and that has not been applied to amounts due. A plan account history is available on My PAA. You should review the account history to confirm that a 2018 overpayment is available. Please note overpayments on plan years earlier than 2018 will not appear during the filing process as available credit(s) that can offset the premium due.

If this amount includes cents, report the exact amount (dollars and cents), not a rounded amount.

11 Amount due

If the total premium due exceeds the total premium credit, subtract the total credit from the total premium and report the result as the amount due. This is the amount you owe PBGC. See [Appendix 3](#) for information on payment options.

If this amount includes cents, report the exact amount (dollars and cents), not a rounded amount.

12 Treatment of overpayment

- a If the total premium is less than the total premium credit, subtract the total premium from the total credit and report the result as an overpayment. If this amount includes cents, report the exact amount (dollars and cents), not a rounded amount.
- b If you have an overpayment, you must choose whether to have the overpayment credited towards the next year’s premium for the plan or refunded (by electronic funds transfer or check). Report your choice by checking the appropriate box.
 - *Credit* - If you choose to use the overpayment as a credit towards next year’s premium for the plan, you should claim the overpayment amount as a credit on the next year’s premium filing for the plan.

Refund - If you choose to have the overpayment refunded, the quickest way to receive your refund is to select the electronic funds transfer option, which we strongly recommend. To facilitate an ACH electronic funds transfer, indicate whether the account is a checking account or savings account, and provide the bank routing number and account number to which the refund is to be credited.

Description of Data Elements

Instructions for Part VI – Miscellaneous Information

13 Final premium filing

If this is the last premium filing for this plan, indicate the reason: (1) that the plan merged or consolidated with another plan, (2) that the plan was trustee under ERISA section 4042, (3) that the plan completed a distribution pursuant to termination, or (4) that the plan ceased to be a covered plan. If the reason is a cessation of coverage, include an explanation as to why you believe the plan is no longer covered (e.g., the only remaining participant is a substantial owner).

Regardless of the reason for this being the final filing, report the date of the event that led to the cessation of the requirement to file. If the reason this is the last premium filing is because:

- the plan merged or consolidated into another plan, report the effective date of the Merger or Consolidation;
- the plan terminated in an involuntary or distress termination, report the effective date of the trusteeship;
- there was a distribution of assets pursuant to a termination:
 - for a Single-employer Plan that completed a standard termination, report the date on which the distribution of the plan’s assets in satisfaction of all Benefit Liabilities was completed (the same date reported on PBGC Form 501 in item 3a), or
 - for a Multiemployer Plan that distributed all its assets pursuant to ERISA section 4041A, report the date the distribution is completed; or
- the plan ceased to be covered by Title IV of ERISA, report the date coverage ceased, report the date reported in PBGC’s response to a request for a coverage determination.

See also [“Failure to report a filing as the final premium filing”](#) in the “Correcting Errors, Credit Balances and Reconciling Estimates” section.

14 Transfers from other plans

Pre-existing plans – If another plan transferred assets or liabilities to this plan since the date of the most recent comprehensive premium filing (or, if this is a filing for a plan year beginning in 2019, since the date of the 2018 “final filing”), report the EIN and PN of the plan from which the assets were transferred (*i.e.*, the “Transferor Plan”).

New Plans – If this plan is a New Plan and another plan transferred assets or liabilities to this plan in conjunction with the creation of this plan, report the EIN and PN of the plan from which the assets were transferred.

Newly Covered Plans – If this plan is a Newly Covered Plan and another plan transferred assets or liabilities to this plan on or after the date this plan became covered and before the date the premium filing is made, report the EIN and PN of the plan from which the assets were transferred.

In all cases, report the date of the transfer and check the box that best describes the type of transfer (see [definitions](#) of Merger, Spinoff, and Consolidation). For this purpose, the date of transfer is the date the transfer went into effect.

The section on [“Mergers, Spinoffs, and Consolidations”](#) contains examples of how this item is completed in various scenarios.

Description of Data Elements

Note that the date of a transfer is determined based on the facts and circumstances of the particular situation. (For transfers subject to section 414(l) of the Code, report the date determined under 26 CFR 1.414(l)-1(b)(11).)

If the transfer is the result of something other than a Merger, Spinoff, or Consolidation, for example, a reciprocity arrangement where assets and liabilities are transferred between two plans when an employee changes locations or changes status (*e.g.*, from Salaried to Hourly and as a result becomes covered by another plan), check the “Other” box. Also check the “Other” box if you have no way of determining whether the Transferor Plan ceased to exist in connection with a Merger or Consolidation into your plan.

If more than one Transferor Plan is involved, provide the above information with respect to each Transferor Plan.

15 Transfers to other plans

Pre-existing plans – If this plan transferred assets or liabilities to another plan since the date of the most recent comprehensive premium filing, report the EIN and PN of the plan to which the assets were transferred (*i.e.*, the “Transferee Plan”). In addition, report the date of transfer and check the box that best describes the type of transfer.

New Plans – If this plan is a New Plan and this plan transferred assets or liabilities to another plan on or after the earlier of the Plan Adoption Date and the effective date, and before the date the premium filing is made, report the EIN and PN of the plan to which the assets were transferred and the type of transfer.

Newly Covered Plans – If this plan is a Newly Covered Plan and this plan transferred assets or liabilities to another plan on or after the date the plan became covered and before the date the premium filing is made, report the EIN and PN of the plan to which the assets were transferred and the type of transfer.

In all cases, if more than one Transferee Plan is involved, provide the above information with respect to each transferor plan. See instructions to [item 14](#) for more information on what is to be reported for “date of transfer.”

The section on “[Mergers, Spinoffs, and Consolidations](#)” contains examples of how this item is completed in various scenarios.

16 Participation freeze

If, as of the beginning of the Premium Payment Year, participation is limited to participants who were covered by the plan as of a specified date (*i.e.*, the plan is closed to new entrants), enter the date the plan became closed to new entrants.

17 Benefit accrual freeze

If, as of the beginning of the Premium Payment Year, the plan is partially or totally frozen for benefit accrual purposes, enter the date the freeze became effective and indicate the nature of the freeze by reporting whether (1) both pay and service are frozen for all participants, (2) both pay and service are frozen for some participants, (3) for all participants, service is frozen, but pay is not, (4) for some participants, service is frozen, but pay is not, or (5) some other type of accrual freeze is in effect (in which case you must provide a description of the freeze).

Description of Data Elements

If more than one description applies (for example, if pay and service are frozen for employees at location X and only service is frozen for employees at location Y), select “Other” and provide a description.

If more than one freeze has occurred, report the date and nature of the most recent freeze.

18 Risk transfer activity – Do not complete this item if this is the final filing for the plan.

a Lump Sum Windows – If the plan provided one or more Lump Sum Windows during the Premium Payment Year or the prior Premium Payment Year, enter the requested information with respect to individuals eligible to elect a lump sum under the window. For this purpose:

- Disregard any Lump Sum Window for which the time period for electing a lump sum ended less than 60 days before the premium filing is made.
- Disregard any Lump Sum Window for which the requested information was reported in the premium filing for the prior Premium Payment Year.
- Disregard lump sums offered:
 - In the course of routine plan operations,
 - In conjunction with a plan termination,
 - Upon a participant’s separation from service, or
 - As part of an incentive program to encourage active participants to retire early (commonly called an early retirement window).
- Disregard lump sums paid under mandatory cash out provisions.
- A person eligible for a Lump Sum Window whose offer letter is undeliverable may be excluded from the “Eligible to elect a lump sum” count.
- If the exact counts are not readily available, reasonable estimates based on readily available plan records may be reported.

b Annuity Purchases - If the plan purchased annuities for a specified group of individuals during the Premium Payment Year or the prior Premium Payment Year, enter the requested information with respect to that group of individuals. For this purpose:

- Disregard annuities purchases made less than 60 days before the premium filing is made.
- Disregard annuities purchases for which the requested information was reported in the premium filing for the prior Premium Payment Year.
- Do not include annuity contracts:
 - Purchased in the course of routine plan operations,
 - Purchased in conjunction with a plan termination, or
 - That remain an asset of the plan (commonly called a “buy-in”).
- If the exact counts are not readily available, reasonable estimates based on readily available plan records may be reported.

Description of Data Elements

19 Amended filings – Complete this item only if this is an amended filing.

- a** If either the first day or the last day of the Premium Payment Year reported in this amended filing (item 4b(1)) differs from what was reported in the original filing (*i.e.*, the filing that is being amended), provide the dates that were reported in the original filing.
- b** If the EIN and PN reported in this amended filing (item 4c(1)) are not both the same as what was reported in the original filing (*i.e.*, the filing that is being amended), report the EIN and PN from the original filing.
- c** If this is an amended filing for a reason other than reconciling an estimated Variable-rate Premium and the amended filing shows a lower premium than the amount that was originally reported, **you must provide an explanation** of the specific circumstances or events that caused the reduction in premium.

20 Disaster Relief – Complete this item only if the plan is eligible for disaster relief for the Premium Payment Year.

- a** Enter the identifier for the IRS Disaster Relief News Release applicable to your plan. For example, if the applicable News Release is labelled CA-2019-01, enter CA201901.
- b** If the address of the Plan Administrator reported in this filing is in the disaster area covered by the IRS News Release identified in item 20a, check yes. Otherwise, check no.
- c** If the answer to item 20b is yes, this item may be left blank. Otherwise, enter the name, address and role (e.g. TPA, Enrolled Actuary) of the person affected by the disaster.

Instructions for Part VII – Certifications

21 Plan Administrator Certification

All of the information reported in this filing must be certified by the Plan Administrator. Be sure to provide the Plan Administrator's name, the telephone number, email address, and the certification date. Follow the [certification instructions](#) for the electronic filing method used to submit the filing (e.g., uploading an xml file created using private sector software, using the My PAA screens).

Although filings must be submitted electronically, procedures have been established under which the Plan Administrator may manually sign a computer-generated copy of the "form". If the Plan Administrator chooses this method of certifying the filing:

- For My PAA screen-prepared and imported filings, a person assigned the role of "plan administrator's representative" must electronically certify within My PAA that the plan administrator has manually certified the filing.
- For software-prepared filings that are uploaded into My PAA, the name and contact information of the plan administrator who manually certified the filing is reported in the certification section of the filing (within the XML filing data).

Manually certified copies of filing information are subject to audit and must be retained with plan records for six years from the due date of the filing. After a paper copy of premium information is certified, it may be converted to electronic form for preservation in the plan records subject to the requirements of subpart E of the PBGC's regulation on Filing, Issuance, Computation of Time, and Record Retention (29 CFR Part 4000).

Description of Data Elements

22 Enrolled Actuary Certification

An enrolled actuary must certify the Variable-rate Premium calculation unless:

- The plan is a Multiemployer plan (and thus, there is no Variable-rate Premium).
- The plan is a Single-employer Plan and is either:
 - exempt from the Variable-rate Premium, or
 - omitting the variable rate premium information in items 7c through 7g because the plan is eligible for the Small Employer Cap and is paying the maximum Variable-rate Premium.

Be sure to provide all of the required information related to the enrolled actuary (i.e., name, firm, telephone number, enrollment number, and if the enrolled actuary has an e-mail address, email address).

The actuary must follow the [certification instructions](#) for the electronic filing method that is used to make the filing.

Late Payment Charges

General

If you file a premium payment after the due date, we will bill the plan for late charges. Late charges include both interest and penalty charges. The charges are based on the outstanding premium amount due on the due date. If your due date is extended because it falls on a weekend or federal holiday, and your premium is not paid in full by the extended due date, interest and penalty will be computed from the actual (unextended) due date. PBGC also may assess penalties under ERISA section 4071 for failure to timely provide premium-related information.

Late Payment Interest Charges

The late payment interest charge is set by ERISA, and we cannot waive it. Interest accrues at the rate imposed under section 6601(a) of the Code (the rate for late payment of taxes) and is compounded daily. These rates are published by IRS quarterly and are also posted on the [“Interest Rates and Factors”](#) section of the [Employers and Practitioners Page](#) of PBGC’s website.

Late Payment Penalty Charges

Late payments are generally subject to a penalty of 2½% of the late amount per month (or partial month) late, capped at 50% of the late amount. However, in the event a plan discovers and corrects an underpayment before PBGC sends written notice that there is or may be a premium delinquency, the 2½% rate is reduced to ½% and the cap is reduced from 50% to 25%.

The written notices mentioned above include, but are not limited to:

- Past Due Filing Notice (PDFN) — This notice is sent if we expect to receive a premium filing from the Plan but do not. These notices are sent to the Plan Administrator and address reported on the most recent filing.
- Notice of Filing Error (NFE) — This notice is sent if an initial review of a premium filing indicates an error or inconsistency that must be corrected before the filing can be processed. If you receive a Notice of Filing Error, you must amend your filing to correct the error. If we do not receive an amended filing within 30 days, we will send a PDFN (see above).
- Statement of Account (SOA) — If we receive a filing, but the payment is late or less than the reported amount owed, we will send a Statement of Account. A SOA is, in essence, an invoice for premium, penalty, and interest amounts owed to PBGC. To ensure that the amount due does not increase, the premium and interest must be paid within 30 days of the SOA's issue date.
- Notice of a Premium Compliance Evaluation (PCE) — This notice is sent if we select your premium filing to assess the accuracy of the reported information. See the [Premium Filings](#) page on our web site for further information.

Late Payment Charges

Penalty Waivers

Case-by-Case Waivers

If you receive a Statement of Account (“SOA”) that includes a penalty charge, but you believe there is a reason why all or a portion of the penalty should be waived (e.g., reasonable cause), you may request a waiver. Information about what constitutes reasonable cause as well as information about other situations where a penalty waiver might be warranted can be found in § 21 of the appendix to PBGC’s premium payment regulation, 29 CFR Part 4007, available on the “[Law and Regulations](#)” page of the [Employers and Practitioners Page](#) of PBGC’s website.

The instructions and timeframe for requesting a waiver will be provided in the SOA. Be sure to follow the instructions carefully. Requests that are submitted late will not be considered.

Hardship (i.e., “Statutory”) Waivers

If, before the filing due date, you can show substantial hardship and that you will be able to pay the premium within 60 days after the filing due date, you may request that we waive the late payment penalty charge. If we grant your request, we will waive the late payment penalty charge for up to 60 days. To request a waiver, contact PBGC at least 30 days before the filing due date. Be sure to include specific information and documents to demonstrate both that it will be a substantial hardship to make the payment on or before the filing due date and that you will have the ability to make the payment within 60 days after the filing due date.

Automatic Penalty Waiver for Premiums paid Within Seven Days of Due Date

If the sole reason a late payment penalty charge applies is because a premium was paid in full after the due date, but within seven calendar days of the due date, the late payment penalty charge will automatically be waived.

Automatic Penalty Waiver for Certain Compliant Plans

PBGC will automatically waive 80% of the penalties assessed at the 2½% rate if the plan:

- Corrects the underpayment within 30 days of PBGC’s initial notice, and
- Has a good premium compliance history.

For this purpose, a “good premium compliance history” generally means that the plan paid required premiums timely for the five plan years immediately preceding the Premium Payment Year. In addition, if, during the 5-year period, the plan paid its premium late, but was not required to pay a late payment penalty (e.g., the penalty was waived), the plan is treated as paying timely for that year.

Automatic Penalty Waiver for Certain Late Variable-rate Premiums

As explained in the “[When to File](#)” section, in rare circumstances (e.g., a mid-year merger or change in actuary), the Premium Funding Target might not be calculated or finalized by the premium due date. PBGC allows plans in this situation to file timely and pay an estimated Variable-rate Premium by the due date and then submit an amended filing at a later date to reconcile the actual Variable-rate Premium with the estimate.

Because a plan’s full Variable-rate Premium (not merely an estimate) is due by the due date, if the full amount is not paid by that date, the plan will be subject to late payment interest charges and may also be subject to late payment penalty charges.

Late Payment Charges

If the actual Variable-rate Premium is greater than the estimate, penalties for late payment will be waived if:

- the reconciliation filing is made and any additional required Variable-rate Premium paid by the end of the sixth calendar month that begins on or after the premium due date (generally April 30th after year-end for calendar year plans), and
- by the premium due date, you report:
 - the fair market value of the plan’s assets, and
 - an estimate of the Premium Funding Target that is certified by an enrolled actuary to be a reasonable estimate that:
 - takes into account the most current data available to the enrolled actuary;
 - has been determined in accordance with generally accepted actuarial principles and practices; and
 - uses the calculation methodology (alternative or standard) in effect for the plan year; and
- by the premium due date, you pay at least the amount of Variable-rate Premium determined from the value of assets and estimated Premium Funding Target so reported.

Note that this waiver applies only to estimated Premium Funding Targets, not estimated asset values. If the asset value reported in the reconciliation filing differs from what was reported in the original (i.e., estimated) filing, this automatic penalty relief will be lost. However, PBGC will consider a request for an appropriate penalty waiver in such a situation and, in acting on the request, will consider such facts and circumstances as the reason for the mistake, whether assets were overstated or understated, and, if assets were overstated, the extent of the overstatement.

If you know the final Premium Funding Target by the time the Variable-rate Premium is due, you should pay the amount owed by that date. If you do so, you will avoid the interest charge and any penalty charge. If you report that you are making a filing based on an estimated Premium Funding Target, you will be required to make an amended filing reflecting the actual Premium Funding Target by the date the Variable-rate reconciliation filing is due.

Minimizing Late Payment Charges

If you cannot make a filing by the due date because you are having difficulty determining some of the required information, you can minimize late payment charges by submitting payment (the amount due or an estimate) without submitting the certified filing. If you choose to do this, you must pay outside of My PAA, either via www.Pay.gov, or by check or electronic payment. You should then submit your certified filing as soon as possible. Additional information on payment options is included in [Appendix 3](#).

PBGC may assess a penalty under ERISA section 4071 for failure to furnish premium-related information by the required due date. Making a premium payment without an accompanying premium information filing (i.e., EIN, PN, PYC) may cause significant delay in providing a statement of account for the plan. However, when the information filing is ultimately made, the payment will be credited as of the date it was filed and thus stop the accrual of late payment charges on the amount paid.

Saturday, Sunday, and Federal Holidays

As explained in the “[When to File](#)” section, if your premium filing due date falls on a Saturday, Sunday or Federal Holiday, it is extended automatically to the next business day. However, if your premium payment is filed after the extended due date, interest and penalties will be computed from the actual (unextended) due date.

Late Payment Charges

Example –The Normal Due Date for a plan with a plan year beginning on March 1, 2019 would normally be December 15, 2019. Because that day is a Saturday, the due date is Monday, December 17, 2019. If the filing is made after December 17th, late payment charges, if applicable, will be computed from Saturday, December 15, 2019, not December 17th.

Correcting Errors, Credit Balances and Reconciling Estimates

Correcting Errors

Making Payment Without Filing Information

If you make a premium payment without filing the related premium information, file the information as soon as possible to get proper credit for your payment and minimize any late filing penalty. Follow the instructions in this document or on PBGC's website for identifying your payment so that we can associate it with your information filing.

Filing Information Without Making Required Payment

If you make a filing of premium information without making a required payment, send the payment as soon as possible to minimize late payment charges. Follow the instructions in this document or in My PAA for identifying your payment so that we can associate it with your information filing.

Failure to report a filing as the final premium filing

If you make a premium filing that is a "Final premium filing" as described in item 13 of the comprehensive premium filing instructions, and you do not provide the information required by item 13, you must make an amended filing **if the event referred to in item 13 occurred before you made your original filing**, unless —

- The event was a distribution of assets pursuant to plan termination and was reported on PBGC Form 501, or
- The event was a merger into or consolidation with another plan and was reported on a premium filing for the surviving plan.

If you make a premium filing that is a "Final premium filing" as described in item 13 of the comprehensive premium filing instructions, and you do not provide the information required by item 13 **because the event referred to in item 13 has not yet occurred when you make the filing**, you are not required to make an amended filing. However, to avoid the need for correspondence to establish why you are not making any more premium filings, we recommend that you contact us to report the event, unless —

- The event was a distribution of assets pursuant to plan termination and is being reported on PBGC Form 501, or
- The event was a merger into or consolidation with another plan and is being reported on a premium filing for the surviving plan.

Even if an amended filing is not required, you may want to make one where the plan has made a distribution of assets pursuant to plan termination, because that event may enable you to reduce the premium through proration and request a refund as part of the amended filing. Alternatively, because our system automatically pro-rates premiums for plans in this situation based on the information reported on PBGC Form 501 and updates the plan's statement of account to reflect any overpayment, in lieu of submitting an amended filing, you may request a refund of such overpayment online or by sending an email to premiums@pbgc.gov or using the "Submit a Request" Quick Link from the My PAA Plan Page (See [Appendix 3](#) for more information about the Quick Link feature).

Amending Filings

If, after submitting a filing, you discover an error has been made (*e.g.*, reported information is incorrect), you must amend the filing to report the correct information even if the correction has no impact on the premium amount. A filing can be amended by resubmitting the filing with the corrected information. Be sure to indicate that the filing is an amendment to a previously submitted filing (see "[Description of Data Elements](#)" sections).

Correcting Errors, Credit Balances and Reconciling Estimates

In the amended filing, report all of the required information, including information that was correct in the original filing (*i.e.*, the filing that is being amended). Include as credits all the credits you previously claimed increased by the amount you paid with your most recent filing and reduced by any refund you requested.

If the originally reported premium:

- was too low, the additional premium due will equal the excess of the revised total premium amount over the revised total credit. Pay the additional premium due when you submit your amended filing. In this case, late payment interest charges will apply and late payment penalty charges may apply. You will receive an invoice for these charges after your amended filing is received. You may include payment of anticipated late payment charges when you pay the additional premium, but the amount reported on the amended filing should reflect only the additional premium due.
- was too high, the overpayment will equal the excess of the revised total credit over the revised total premium. You must indicate whether you want the overpayment refunded or applied to the next year's premium for the plan. We recommend that small credit amounts be carried over to the next plan year. Please verify the credit amount by either reviewing the plan's account history in My PAA or by contacting our Premium Customer Service Center. Then, simply enter the relevant amount under "Premium Credits" in the next year's premium filing. See line [10b](#) on the illustrative form in the "Data to be Submitted" section.

If you prefer a refund by electronic funds transfer (ACH), provide the necessary information in the applicable section of the amended filing; we will make the transfer through the ACH system.

With either option, the overpayment will appear as an "Amount Overpaid" on your plan's account history until it is refunded or used to satisfy a future year's premium. See section below on Premium Credit Balances.

Required explanation if premium amount decreases

If you amend a comprehensive filing for a reason other than reconciling an estimated Variable-rate Premium and the amended filing shows a lower premium than the amount that was originally reported, **you must provide an explanation** of the specific circumstances or events that caused the reduction. For example, if your original comprehensive filing's Participant Count included employees at a division that is not covered by the plan, you would explain why the employees were erroneously counted as participants and how the error was discovered.

Amending a prior year's filing

Note that if you are amending a filing for an earlier year, you must follow the instructions for that year except that current mailing and electronic funds transfer (EFT) addresses should be used instead of the addresses that were included in the instructions for the original filing (*i.e.*, the filing that is being amended). Prior year instructions are available in the ["Premium Filing"](#) section of the [Employers and Practitioners Page](#) of PBGC's website.

Correcting Errors, Credit Balances and Reconciling Estimates

Premium Credit Balances

Premium credit balances, whether resulting from an amended filing or any overpayment, are shown on plans' account histories and can be viewed in My PAA at any time. We recommend you review your plan's account history before you file to ensure that any available credits from the prior plan year have been used. If you have a credit from two or more years prior to the Premium Payment year, you will need to contact the Premium Customer Service Center in order to use it (See [Appendix 2](#)).

Note that an overpayment for one plan cannot be applied to offset an underpayment on another plan.

A plan administrator may request that a premium credit balance be refunded or be credited against the next year's premium. Requests must be made within the statutory limitation period (generally six years).

Reconciling Estimates

For plans that filed an estimated Variable-rate Premium, the reconciliation is made by amending the filing that included the Variable-rate Premium estimate. This reconciliation filing serves to finalize a previously estimated Premium Funding Target; it does not afford an opportunity to elect to use the alternative method after the due date for such election (or to revoke a prior election after the due date for such revocation). See the instructions for item 7d in the "[Description of Data Elements](#)" section for additional information on how to reconcile an estimated Variable-rate Premium.

Failure to reconcile these estimates in a timely manner will result in late payment charges if the estimate to be reconciled was too low. PBGC may also assess penalties under ERISA section 4071 for failure to reconcile estimated premium filings by the reconciliation due date.

Recordkeeping Requirements and PBGC Audits

Recordkeeping Requirements

Plan Administrators are required to retain all plan records that are necessary to establish, support and validate the amount of any PBGC premium required to be paid and any information required to be reported. The records must include calculations and other data prepared by an enrolled actuary, the Plan Sponsor, and an employer required to contribute to the plan with respect to its employees; or for a plan described in section 412(e)(3) of the Code, by the insurer from which the insurance contracts are purchased. The records must be kept for six years after the premium due date.

Records that must be retained include, but are not limited to, records that establish the number of plan participants and the amount of unfunded vested benefits on which the Variable-rate Premium is based. For this purpose, the term “records” includes, but is not limited to, plan documents; participant data records; personnel and payroll records; actuarial tables, worksheets, and reports; records of computations, projections, and estimates; benefit statements, disclosures, and applications; financial and tax records; insurance contracts; records of plan procedures and practices; and any other records, whether in written, electronic, or other format, that are relevant to the determination of the amount of any premium required to be paid or any premium-related information required to be reported.

Records retained must be made available or submitted to PBGC promptly upon request. If a record to be produced for PBGC inspection and copying exists in more than one format, it must be produced in the format that PBGC specifies.

PBGC Audits

We may audit any premium filing; inspect and copy any records that are relevant to the determination of the amount of any premium required to be paid and any premium-related information required to be reported; and require disclosure and demonstration of any system used to determine any premium required to be paid or premium-related information required to be reported, so that PBGC can assess the system’s effectiveness and reliability.

If we determine upon audit that the full amount of the premium due was not paid, late payment interest charges under §4007.7 of the Premium Regulations and late payment penalty charges under §4007.8 of the Premium Regulations will apply to the unpaid balance from the premium due date to the date of payment (see [“Late Payment Charges”](#) section for more information on penalties and interest for late payment of premiums).

If, in our judgment, the plan’s records fail to establish the number of participants with respect to whom premiums were required, we may rely on data we obtain from other sources (including the Internal Revenue Service and the Department of Labor) for presumptively establishing the number of plan participants for premium computation purposes. Similarly, if, in our judgment, the plan’s records fail to establish the unfunded vested benefits amount reported in the premium filing, we may rely on data we obtain from other sources for estimating the unfunded vested benefits for premium computation purposes.

In addition to penalties for late payment of premiums, we may assess a penalty under ERISA section 4071 for failure to furnish premium-related information by required due dates.

Appendix 1 – Definitions

Definitions for terms shown in capital letters throughout the instructions are shown below. New or modified terms are highlighted in green for emphasis.

“Alternative Premium Funding Target” – see [“Premium Funding Target”](#)

“Benefit Liabilities” means all liabilities with respect to employees and their beneficiaries under the plan (within the meaning of Code section 401(a)(2)). Thus, Benefit Liabilities include liabilities for all accrued benefits, whether or not vested. In addition, a plan’s Benefit Liabilities include liabilities for ancillary benefits not directly related to retirement benefits, such as disability benefits not in excess of the qualified disability benefit, life insurance benefits payable as a lump sum, incidental death benefits, or current life insurance protection (see [Treasury Regulation § 1.411\(a\)-7\(a\)\(1\)](#)).

“Code” means the Internal Revenue Code of 1986, as amended.

“Consolidation” means a transaction in which two or more plans transfer all of their assets and liabilities to a New Plan and, as a result, cease to exist (because the transferor plans become part of the new Transferee Plan). It differs from a Merger because in a Merger, the Transferee Plan existed before the transaction. In a Consolidation, the Transferee Plan is a New Plan that is created in the Consolidation. Thus, the plan that exists after a Consolidation follows the premium filing rules for New Plans.

“Continuation Plan” means a new plan resulting from a Consolidation or Spinoff that is not *de minimis* pursuant to the regulations under section 414(l) of the Code. For this purpose, a Spinoff is not *de minimis* if the Transferor Plan transfers 3% or more of its assets to the Transferee Plan.

“EIN” means Employer Identification Number. It is always a nine-digit number assigned by the Internal Revenue Service for tax purposes.

“ERISA” means the Employee Retirement Income Security Act of 1974, as amended (29 U.S.C. 1001 et seq.).

“Flat-rate Premium” means the portion of the premium determined by multiplying the flat premium rate by the number of participants in the plan on the Participant Count Date.

“Form 5500 Series” means Form 5500, Annual Return/Report of Employee Benefit Plan, jointly developed by the Internal Revenue Service, the Department of Labor, and PBGC.

“Interest Rate Stabilization Rules” means the rules under which the volatility of certain discount rates used for funding purposes is limited by constraining them within a specified corridor as provided in ERISA 303(h)(2)(C)(iv).

“Lookback Rule” means the provision under which the Variable-rate Premium for the Premium Payment Year is determined based on UVBs for the plan year immediately preceding the Premium Payment year instead of the Premium Payment Year.

“Lookback Year” means the plan year immediately preceding the Premium Payment Year.

“Lump Sum Window” means a temporary opportunity to elect a lump sum in lieu of future annuity payments that is offered to individuals meeting specified criteria who would not otherwise be eligible to elect a lump sum.

“MAP-21 Cap” means the per-participant cap on the Variable-rate Premium as provided in The Moving Ahead for Progress in the 21st Century Act.

“Merger” means a transaction in which one or more plans transfer all of their assets and liabilities to an existing plan and, as a result, cease to exist (because the transferor plan(s) become part of the Transferee Plan). It differs from a Consolidation because in a Consolidation, the Transferee Plan did not exist before the transaction. In a Merger, the Transferee Plan is an existing plan and follows the rules for preexisting, ongoing plans.

Appendix 1 – Definitions

“Multiemployer Plan” (subject to the provisions of ERISA sections 3(37)(E) and (G) and 4303, dealing with elections to be treated or not to be treated as a Multiemployer Plan) means a plan:

- to which more than one employer is required to contribute,
- which is maintained pursuant to one or more collective bargaining agreements between one or more employee organizations and more than one employer, and
- which satisfies such other requirements as the Secretary of Labor may prescribe by regulation.

For purposes of determining whether a plan is a Multiemployer Plan or a Single-employer Plan, all trades or businesses (whether or not incorporated) that are under common control are considered to be one employer.

“Multiple-employer plan” means a plan to which more than one employer contributes that is not a Multiemployer Plan.

“My PAA” means “My Plan Administration Account,” PBGC’s electronic premium filing application.

“New or Newly Covered Plan” means a plan that is either a New Plan or a Newly Covered Plan. In some cases, the term “New and Newly Covered Plan” is used for the same purpose.

“New Plan” means a plan that did not exist before the Premium Payment Year. This includes a plan resulting from a Consolidation or Spinoff. A plan that meets this definition is considered to be a New Plan even if the plan constitutes a successor plan within the meaning of ERISA section 4021(a).

“Newly Covered Plan” means a plan that becomes covered by title IV of ERISA during the premium payment year and that existed as an uncovered plan immediately before the first date in the premium payment year on which it was a covered plan.

“Normal Premium Due Date” means the date premiums are due unless some special situation applies (i.e., a change in plan year, first time filing, or a standard termination). See [“When to File”](#) section.

“Participant” of a plan means an individual (whether active, inactive, retired, or deceased) with respect to whom the plan has Benefit Liabilities. See [“How to Count Participants”](#) section for more information.

“Participant Count” means the number of participants on the Participant Count Date. See [“How to Count Participants”](#) section for more information.

“Participant Count Date” means the date on which participants are counted for purposes of determining the Flat-rate Premium, the MAP-21 CAP on the Variable-rate Premium, whether the plan is a Small Plan, and, if applicable, the Small Employer Cap on the Variable-rate Premium. In general, it is the last day of the plan year preceding the Premium Payment Year, but there are some exceptions. See [“How to Count Participants”](#) section for more information.

“Plan Administrator” means:

- the person specifically so designated by the terms of the instrument under which the plan is operated; or
- if an administrator is not so designated, the Plan Sponsor.

“Plan Adoption Date” means the date on which a plan was formally adopted.

Appendix 1 – Definitions

“Plan Sponsor” is determined as follows:

- For a Single-employer Plan with:
 - one contributing sponsor, the Plan Sponsor is the contributing sponsor;
 - two or more contributing sponsors that are all in a single controlled group, the Plan Sponsor is the parent of the controlled group or, if there is no parent, the largest member of the controlled group (whether or not the parent or largest member is a contributing sponsor);
 - two or more contributing sponsors that are not all in a single controlled group, the Plan Sponsor is determined as follows: first identify the controlled group, or contributing sponsor that is not in a controlled group, that has the most participants in the plan. If you identify a contributing sponsor that is not in a controlled group, the Plan Sponsor is that contributing sponsor. But if you identify a controlled group, then the Plan Sponsor is the parent of that controlled group or, if there is no parent, the largest member of that controlled group (whether or not the parent or largest member is a contributing sponsor).
- For a Multiemployer Plan, the Plan Sponsor is the association, committee, joint board of trustees, or other entity that establishes or maintains the plan.

“PN” means Plan Number. This is always a three-digit number. The employer maintaining the plan assigns this number to distinguish among employee benefit plans established or maintained by the same employer. An employer usually starts numbering pension plans at “001” and uses consecutive Plan Numbers for each additional plan. Once a PN is assigned, always use it to identify the same plan. If a plan is terminated, retire the PN — do not use it for another plan.

“Premium Funding Target” is the liability measure used to determine the Variable-rate Premium. This is similar to the funding target that is used to determine the minimum funding requirement except that only vested benefits are taken into account. The discount rates used to determine this amount vary depending on which calculation method is used (standard or alternative):

- “Standard Premium Funding Target” means a Premium Funding Target determined using the ERISA section 4006(a)(3)(E)(iv) segment rates.
- “Alternative Premium Funding Target” means a Premium Funding Target determined using ERISA section 303 (i.e., funding) discount rates, but without regard to the MAP-21 Stabilization Rules. See “[How to Determine Unfunded Vested Benefits](#)” section for additional information related to the election and use of the Alternative Premium Funding Target.

“Premium Payment Year” means the plan year for which the premium is being paid. For example, since this document relates to premium filings for plan years beginning in 2019, all references to “Premium Payment Year” relate to plan years beginning in 2019.

“Premium Regulations” means PBGC’s regulations on Premium Rates and Payment of Premiums (29 CFR Parts 4006 and 4007). The premium filing procedures (including the My PAA electronic filing application, paper instructions, and forms) are prescribed under and implement the Premium Regulations.

“Schedule SB” means Schedule SB to the Form 5500 Series.

“Single-employer Plan” means any plan that is not a Multiemployer Plan. A Single-employer Plan includes a Multiple-employer Plan. For purposes of determining whether a plan is a Multiemployer Plan or a Single-employer Plan, all trades or businesses (whether or not incorporated) that are under common control are considered to be one employer.

Appendix 1 – Definitions

“Small-Employer Cap” means the maximum Variable-rate Premium due for certain plans of small employers, generally employers with 25 or fewer employees. For these plans, the maximum Variable-rate Premium is the product of \$5 and the Participant Count squared.

“Small Plan” means a plan:

- With a Participant Count for the Premium Payment Year of not more than 100, or
- With a funding valuation date for the Premium Payment Year, determined in accordance with ERISA section 303(g)(2), that is not the first day of the Premium Payment Year.

“Spinoff” means a transaction in which the Transferor Plan transfers only part of its assets and/or liabilities to the Transferee Plan. The Transferee Plan may be a New Plan that is created in the Spinoff, or it may be a preexisting plan that simply receives part of the assets and/or liabilities of the Transferor Plan.

“Standard Premium Funding Target” – see [“Premium Funding Target”](#)

“Transferee Plan” means a plan that receives assets and/or liabilities from another plan in a transfer (e.g., Spinoff, Merger, or Consolidation).

“Transferor Plan” means a plan that gives assets and/or liabilities to another plan in a transfer (e.g., Spinoff, Merger, or Consolidation).

“UVB Valuation Date” means the date on which UVBs are determined. This date is the plan’s funding valuation date determined in accordance with ERISA section 303(g)(2) for:

- In the case of a plan using the Lookback Rule, the Lookback Year, or
- In the case of any other plan, the Premium Payment Year.

“UVBs” means unfunded vested benefits, the term used to describe the underfunding measure on which the Variable-rate Premium is based.

“Variable-rate Premium” means the portion of the single-employer premium based on a plan’s unfunded vested benefits.

“We” or **“us”** refers to the Pension Benefit Guaranty Corporation.

“You” or **“your”** refers to the Plan Administrator.

Appendix 2 – Contact information

1. PBGC's Web site (www.pbgc.gov) contains pension plan information of interest to Plan Administrators and practitioners, such as electronic premium filing, current and prior premium filing booklets, frequently asked questions, interest rates, regulations, etc. This information can typically be accessed via the [Employers and Practitioners Page](#). Note that you can access or subscribe to "[What's New for Practitioners and Employers](#)" that provides information on recent events.
2. Submit **electronic premium filings** (including electronic amended filings) through "My Plan Administration Account" (My PAA) via the "[Online Premium Filing \(My PAA\)](#)" section of the [Employers and Practitioners Page](#) of PBGC's website and follow instructions about how to use My PAA for submitting premium payments.
3. For all premium-related inquiries and requests, including premium filing questions, requests for instructions, address changes, requests for refunds (that are not submitted with premium filings), and requests for penalty waivers, contact our Premium Customer Service Center using one of these following options:
Preferred option: My PAA "Submit a Request" Quick Link. Submitting the request this way has many benefits (e.g., automatically generated confirmation email, ability to check the status of a requests). See [Appendix 3](#) for more information.
Other options:
 - a. Mail or private delivery service: Send to the address for premium correspondence posted on the "[Contact Us for Practitioners](#)" web page.
 - b. Call: 1-800-736-2444 or 202-326-4242 and select option 2 (premiums).
 - c. E-mail: premiums@pbgc.gov
4. For current interest rate information:
 - a. Call: 202-326-4041
 - b. See: "[Interest Rates and Factors](#)" section on the [Employers and Practitioners Page](#) of PBGC's website.
5. For assistance on coverage determination or plan termination:
 - a. Call: 1-800-736-2444 or 202-326-4242
 - b. E-mail: standard@pbgc.gov
 - c. Write to:

Pension Benefit Guaranty Corporation
Standard Termination Compliance Division, Suite 930
Processing and Technical Assistance Branch
1200 K Street, NW
Washington, DC 20005-4026

Appendix 2 – Contact information

6. If you have a complaint about the service you have received or still need assistance after calling our practitioner telephone numbers listed in item 4 (1-800-736-2444 or 202-326-4242), please contact the Problem Resolution Officer (Practitioners):
 - a. Call: 1-800-736-2444, ext. 4136 or 202-326-4136
 - b. E-mail: practitioner.pro@pbgc.gov
 - c. Write to:

Pension Benefit Guaranty Corporation
Problem Resolution Officer (Practitioners); Suite 610
1200 K Street, NW
Washington, DC 20005-4026
7. For questions about our Premium Compliance Evaluation Program:
 - a. Call: 1-800-736-2444, ext. 6855 or 202-326-4161, ext. 6855
 - b. E-mail: pce@pbgc.gov
8. For software developers requesting approval of XML files produced by private-sector software for use in My PAA, follow the submission instructions on the “[Software Developer E-filing Resources for Integrating with PBGC](#)” webpage. The link to this webpage is found in the section titled “Related Information” on the right side of the “[Online Premium Filing with My PAA](#)” webpage.

PBGC’s business hours are 8:00 am to 5:00 pm Eastern Time, Monday through Friday, except Federal Holidays.

TTY/TDD users may call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to any telephone number.

Appendix 3 – On-line Premium Filing with My PAA

Introduction

My Plan Administration Account (My PAA) is a secure, Web-based application that enables you to electronically submit premium filings, payments, premium refund requests, and requests for reconsideration of late payment penalties to PBGC. Although electronic filing of premium information is mandatory, payments may be made either electronically or by paper check.

Information about how to use My PAA may be accessed on PBGC’s website as well as within the My PAA application itself. Detailed information (e.g., FAQs and Demos) is located in the “[Online Premium Filing \(My PAA\)](#)” section (accessible via the [Employers and Practitioners Page](#) of PBGC’s website).

To use My PAA, you must set up a My PAA account which includes a user ID and password. Each My PAA user needs only one account, which can include an unlimited number of plans.

My PAA offers three e-filing methods:

- You can use My PAA’s data entry and editing screens to create a filing; route it to others for review, editing, and electronic certification; and submit it electronically to PBGC. Each person who participates in the electronic processing of the filing must have a My PAA account.
- You can use private-sector software that is compatible with My PAA to create a filing, and then import the filing data into My PAA’s data entry and editing screens for routing, review, editing, electronic certification, and electronic submission to PBGC. Each person who participates in the electronic processing of the filing must have a My PAA account.
- You can use private-sector software that is compatible with My PAA to create a filing, and then upload the filing to PBGC via the My PAA application. The filing cannot be routed, reviewed, or edited in My PAA. In most cases, a paper copy or copies of the filing must be certified outside of My PAA (before the filing is uploaded) and retained in plan records. Only the person who uploads the filing must have a My PAA account.

What’s new with My PAA

Additional functionality has been added to the “Submit a Request” Quick Link button located near the top of the “Plan Page”. When you click that button, templates for various premium-related items to PBGC will appear (e.g., request for reconsideration of an assessed penalty or premium refund, general correspondence). You can enter your question/request directly into the on-line template and submit it directly to PBGC.

When a request has been successfully submitted, an automatic Service Request ID will be generated and all filing team members will receive a confirmation email. In addition, a “Check Status of Request” Quick Link button has been created to allow plans to track certain plan-specific requests. This page includes all requests that filing team members created via the “Submit a Request” Quick Link (mentioned above) as well as other relevant plan items which may have been created internally by the PBGC.

Appendix 3 – On-line Premium Filing with My PAA

My PAA's Data Entry and Editing Screens

Entering information

My PAA's data entry and editing screens walk you through a step-by-step process to create a premium filing. For example, in the first step you identify the type of plan (Single-employer or Multiemployer) for which the filing is being submitted, and the plan year. Instructions are provided at each step.

The information entered in each step determines the content of the successive steps. For example, if you indicate that you are preparing a comprehensive premium filing for a Single-employer Plan, the later steps will request information needed to determine the amount of the Variable-rate Premium (if applicable). However, if you indicate that you are preparing a comprehensive premium filing for a Multiemployer Plan, the Variable-rate Premium screens will be suppressed.

The required mathematical calculations are automated. For example, My PAA automatically multiplies your Participant Count by the applicable flat premium rate to generate the Flat-rate Premium.

E-filing team

Multiple people can contribute to a plan's filing in My PAA's data entry and editing screens. For example, some information might be entered by the Plan Administrator and other information by an actuary. The people authorized to contribute to a plan's premium filing in My PAA's data entry and editing screens are those who have the plan in their My PAA accounts, and are referred to as the plan's "e-filing team."

Routing filings

Filings in progress can be routed among e-filing team members through My PAA for input, review, editing, e-certification of information, authorization of payment, and submission to PBGC. The person routing the filing to another member of the e-filing team can provide comments and instructions for the person to whom the filing is being routed. My PAA sends that person an e-mail notice (with the comments and instructions) stating that the filing has been routed for the recipient's action and that the recipient is now "holding" that filing. After all information has been provided and certified, and payment (if any) has been authorized, the filing can be electronically submitted to PBGC by the Plan Administrator or Filing Coordinator.

Using Private-Sector Software with My PAA

Compatibility with My PAA

You can use private-sector software to prepare a premium e-filing, but the software you use must be compatible with My PAA. That means that the software must be able to place your filing in an electronic file that is in "XML" format and meets PBGC specifications. The specifications are posted on the "[Online Premium Filing \(My PAA\)](#)" webpage. Private-sector software providers and developers submit to PBGC sample filings in XML format for PBGC review and assignment of vendor numbers; you should review PBGC's Web site or check with your software provider or developer to find out whether your software is capable of creating an XML file in the proper format for use with My PAA. If your compatible private-sector software permits, you can create batch files containing more than one premium filing for use with My PAA.

Importing a filing

A premium filing that has been prepared with compatible private-sector software can be "imported" into My PAA's data entry and editing screens. That means that the information in the filing is placed into the data entry and editing screens and can then be electronically routed, reviewed, edited, certified, and submitted to PBGC as

Appendix 3 – On-line Premium Filing with My PAA

previously described in the [My PAA's Data Entry and Editing Screens](#) section. To import a filing for a plan, the plan must be in your My PAA account. My PAA provides instructions for importing filings. My PAA's import feature also allows multiple filings to be imported at the same time.

Uploading a filing

A premium filing that has been prepared with compatible private-sector software can also be “uploaded” through My PAA. That means that the fully-completed filing is submitted directly to PBGC and, therefore, cannot be reviewed or edited in My PAA before submission to PBGC. My PAA's upload feature also allows multiple filings to be uploaded at the same time (*i.e.*, a batch upload).

To upload a filing for a plan, the plan need not be in your My PAA account, but you must have a My PAA account with at least one plan in it. You must electronically certify in My PAA that you have authority to submit the filing for the plan, but in most cases the information in the filing must be certified on paper outside My PAA before the filing is uploaded, and the certified information must be retained in plan records. (The Plan Administrator's (or enrolled actuary's) certification can be made on-line if it is the Plan Administrator (or enrolled actuary) who uploads the filing.) My PAA provides instructions for uploading filings and for certifying the information in uploaded filings.

Filing Coordinator

A central role in the e-filing process is played by the “filing coordinator,” who is the person designated by the plan or Plan Sponsor to be responsible for coordinating the plan's on-line premium filings. The filing coordinator for a plan is the one who adds that plan to the account of each other person in the e-filing team and assigns each e-filing team member one or more filing roles, such as the authority to certify a filing (*e.g.*, as the Plan Administrator). My PAA provides instructions for becoming a plan's filing coordinator, adding plans, adding e-filing team members, assigning roles, etc.

Premium Payment Options

If you owe a premium, there are several ways to submit payment:

- Automated Clearing House (ACH) payment within My PAA: This is an electronic transfer of funds from an account that you specify by entering your account number and bank routing number. Additional information about this payment option is available in My PAA. This option is not available if you are uploading multiple filings at the same time (*i.e.*, batch uploads).
- Electronic Payment via Pay.gov: This is a website from which you can make secure electronic payments directly to many Federal Agencies, including PBGC. It involves entering information about your plan (*i.e.*, EIN, plan number, the date the applicable plan year began, information about the account from which payment will be made) and then authorizing payment. To pay using this option, go to www.pay.gov and select Pension Benefit Guaranty Corporation from the “Find an Agency” List, and then select PBGC's online Premium Insurance Payments Form.
- Paper Check: You can mail a paper check to our premium lockbox.
- Federal Wire and ACH: You can direct your bank to send us a payment.

Appendix 3 – On-line Premium Filing with My PAA

See the “[Premium Filing](#)” section of the [Employers and Practitioners Page](#) of PBGC’s website for additional information about payment options and addresses. Be sure to use the most current payment addresses for all plan year filings, including prior year filings.

Options for Certifying Filing

Uploaded Filings

Premium filings that are uploaded — like filings submitted by any other electronic method or on paper — must be certified. The plan administrator must certify all the information in the filing, and for many single-employer plan filings, an enrolled actuary must certify the variable rate premium information in the filing.

How the certification is done depends on who performs the upload. A plan administrator (PA) or enrolled actuary who uploads a filing will provide a certification directly on the My PAA upload screen. If a second certification is required, it will be done before the filing is uploaded on a paper copy of the filing information (i.e., by the plan administrator if the enrolled actuary uploads, or by the enrolled actuary if the plan administrator uploads). If the person who uploads is not the plan administrator or enrolled actuary, the uploader will typically print out copies of the uploaded information and send one copy to the plan administrator and one copy to the enrolled actuary (if an enrolled actuary must certify) for certification before the filing is uploaded. Certified copies of filing information are subject to audit and must be retained with plan records for six years from the due date of the filing. The upload certification procedures are designed to ensure that the plan administrator and enrolled actuary know what information they are certifying and that the information uploaded has been certified, while making the process as simple as possible.

Imported Filing or Screen-Prepared Filing

For filings that are prepared via the My PAA data entry screens and for filings that are imported into the My PAA screens, all certifications are made on the My PAA screens. Each certifier may have an account, and if so, the plan must be included within each person's account. To certify a filing, a person with the appropriate permission must hold the filing. The filer can electronically edit, route, sign, pay (within My PAA or outside of My PAA), and submit the filing(s) to PBGC depending on permissions. See the [My PAA Users Manual](#) for further details.

For My PAA screen-prepared and imported filings, we also allow a plan administrator's representative to electronically sign a filing within My PAA and to certify that the plan administrator has manually certified the filing. The permission called "plan administrator's representative" is assigned by the plan's filing coordinator.

In order for the Plan Administrator’s (PA) representative to e-sign within My PAA, the PA must first sign a paper copy of the premium information. After a paper copy of premium information is certified, it may be converted to electronic form for preservation in the plan records subject to the requirements of subpart E of the PBGC’s regulation on Filing, Issuance, Computation of Time, and Record Retention (29 CFR Part 4000).

Other Important My PAA Features

Filing Confirmation

My PAA gives you a filing confirmation. For a filing submitted from My PAA’s data entry and editing screens (including a filing imported into My PAA), the filing confirmation shows the date and time that PBGC received the filing, a confirmation number, and all of the information submitted in the filing.

Appendix 3 – On-line Premium Filing with My PAA

For an uploaded filing, the filing confirmation shows the name of the uploaded XML file, the date and time of receipt by PBGC, and a confirmation number. This confirmation number must be written on the signed paper copy of the “form” retained the Plan Administrator’s records. After a filing is uploaded, the uploader can view the information submitted in each uploaded filing.

In either case, provide the confirmation number to the preparer of the Form 5500 or Form 5500-SF, because that number is generally reported as part of the Form 5500 filing.

Account history

A member of a plan’s e-filing team may, if authorized by the filing coordinator, view the plan’s account history on-line through My PAA. The account history shows the results of PBGC’s processing of your premium filings and payments for each plan year. We recommend that you review the account history after your premium filing is processed.

Request for Premium Refund

The plan administrator may request that an overpayment of premiums be refunded. The request will be assigned a service request number, which can be used to track the status of the request on My PAA. We recommend that you review the account history before requesting a premium refund.

Instructions

My PAA provides full filing instructions and help screens. In addition, PBGC’s website information and “demos” about how to get started and how to use My PAA. To access the My PAA information, click the “[Online Premium Filing \(My PAA\)](#)” link from the [Employers and Practitioners Page](#) of PBGC’s website.

For More Information

If you have questions about e-filing with My PAA, please contact us. See [Appendix 2](#) for information.

Appendix 4 — Common Filing Errors

Incorrect Identifying Information

The EIN combined with the plan number are used by the IRS, DOL and PBGC as a unique 12 digit number to identify the plan. In addition, PBGC uses the Plan's effective date as an additional confirmation that the premium filing is for a plan that's already in our database (based on previously reported information on Forms 5500 and on premium filings).

Unless there has been a change to the Employer Identification Number (EIN) and/or Plan Number, the EIN and plan number provided on the filing must match what was reported on the most recent premium filing. If there is a new EIN and/or plan number, both the EIN and plan number from the previous filing must also be reported. The EIN and PN combination may not be the EIN and PN that were previously used to identify a different plan.

If we receive a filing for a plan that doesn't indicate that it's a new plan and we are unable to match the plan to one that's already in our database, we will be unable to perform further validations and will send an error notice accordingly.

Sending Payment without Properly Identifying Plan

We often receive premium payments that do not contain sufficient information to identify the plan and thus, we cannot credit the payment to the plan's premium account. When we receive a comprehensive premium filing indicating the amount owed, but no payment is credited to the account, we send an invoice for the premium, including late payment charges. This can be avoided by ensuring that the following information be included with all premium payments:

- EIN
- Plan number
- Plan year Commencing Date (PYC)
- MyPAA Filing ID (for premium payments)

PBGC premium payments will automatically be credited to the premium account if the identifying information noted above is included with the payment.

The best way to avoid issues with your premium payment is to submit the payment via PBGC's online filing website, MyPAA (<https://egov.pbgc.gov/mypaa/>) or pay.gov and ensure you enter the correct information into the on-line voucher.

We encourage you to review our "[Premium Filing](#)" webpage each year before sending payment. Note that payment instructions will be changing in early 2019.

New Plans Failing to do a First Year Filing

A premium filing is required for the first plan year of a new plan even if no premium is owed. In that first premium filing, be sure to complete item 4f (e.g., check the "new or newly covered plan" box) and provide the adoption date and the date coverage began.

For a new plan, both the effective date (item 4d) and the participant count date (item 5a) are the first day of the Premium Payment Year (item 4b(1)).

Appendix 4 — Common Filing Errors

Small Plan Lookback Rule Inconsistencies

For plan years after 2013, Variable-rate Premiums for small plans are based on unfunded vested benefits for the prior plan year unless the plan opts out of the Lookback Rule. In most cases, PBGC permission is required to opt out of the Lookback Rule after 2014. See [“How to Determine Unfunded Vested Benefits”](#) for details.

PBGC reviews all small plan filings to ensure that plans that didn’t opt out are, in fact, using the Lookback Rule and vice versa. PBGC uses the reported UVB valuation date to determine whether the Lookback Rule is used. For example, if a calendar year plan reports 12/31/2017 as the UVB valuation date in the Comprehensive Premium Filing for the 2018 plan year, PBGC assumes the plan (1) has a year-end valuation date and (2) is using the Lookback Rule for purposes of determining its 2018 Variable-rate Premium.

- If our records indicate the plan opted out of using the Lookback Rule in an earlier year, an error letter will be sent.
- If our records indicate that the plan was supposed to using the Lookback rule, PBGC will review the discount rates reported to have been used to determine the Premium Funding Target to confirm that those rates are acceptable options for a plan using the Lookback Rule. If that’s not the case, an error letter will be sent.

Similarly, if a calendar year plan reports 1/1/2018 as the UVB valuation date in the Comprehensive Premium Filing for the 2018 plan year, PBGC assumes the plan (1) has a beginning of year valuation date and (2) is not using the Lookback Rule for purposes of determining its 2018 Variable-rate Premium.

- If our records indicate the plan did not opt out of using the Lookback Rule in an earlier year, an error letter will be sent.
- If our records indicate that the plan was not supposed to use the Lookback rule, PBGC will review the discount rates reported to have been used to determine the Premium Funding Target to confirm that those rates are acceptable options for a plan that is not using the Lookback Rule. If that’s not the case, an error letter will be sent.

See [“How to Determine Unfunded Vested Benefits”](#) section for more information.

Entering Incorrect “Plan Year” Information for Final Short Plan Year

As explained in the “Short Plan Years” part of the [“Who Must File”](#) section, in some cases, plans qualify to pay a prorated premium for a short plan year. Plans eligible for pro-rating report:

- The beginning and end of the short plan year,
- The number of months in the short plan year, and
- The pro-rated premium owed.

See lines 4b and 8 on the illustrative form in the “Data to be Submitted” section.

PBGC has found several instances where this information is inconsistent. For example, we’ve received filings that indicate the plan year begins on January 1 and ends on December 31, 2017, but also that the premium was pro-rated because there are 10 months in the short plan year. Such inconsistencies may trigger unnecessary inquiries and/or invoices.

Reminder – Premiums are not pro-rated for short plan years created as the result of a mid-year Merger or Consolidation.

Appendix 5 — Paperwork Reduction Act Notice

We need this information to determine the amount of premium due to PBGC under Title IV of ERISA. You are required to give us this information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

OMB has approved this collection of information under control number 1212-0009.

Confidentiality is that provided by the Privacy Act and the Freedom of Information Act.

PBGC estimates that preparation and submission of a premium filing takes approximately 45 minutes on average of in-house time and \$692 on average of contracted out cost. The actual time and cost will vary depending on the circumstances of each plan.

If you have comments concerning the accuracy of these burden estimates or suggestions for making the forms or the electronic filing process simpler, please send your comments to Pension Benefit Guaranty Corporation, Office of General Counsel, Regulatory Affairs, 1200 K Street, NW, Washington, DC 20005-4026.
